SESSION FULL OF INTEREST

Legislation for Development of Province to Come Before Parliament Which Convenes Today

PREMIER TO ANNOUNCE NEW RAILROAD POLICY

Pictureque Ceremonial at Opening by Lieutenant-Governor—Forecast of Speech from the Throne

Yesterday's steamer from the provincial mainland brought to the Capital a majority representation of the members of the twelfth legislative assembly of British Columbia, the third (and it is generally believed final) session of which will open this afternoon at the usual hour of three o'clock, with all the time-honored and picturesque ceremonial attaching to such events in the conduct of British representative government. His honor, Lieutenant-Governor Patterson, will attend promptly at the hour, attended by his secretary, Mr. Muskett, his A.D.C., Capt. Tyrwhitt-Drake, his official staff, drawn from the officers of the Canadian navy and military services and the Fifth Regiment C.G.A., while the band of honor will be furnished by the military of the city. The Lieutenant-Governor, in charge of Captain and Adjutant P. A. Stern, assisted by Lieutenants F. A. Robertson and D. C. Reid. The regimental order for the parade requires the muster of the men in review order with helmets, and the band, under Bandmaster Rogers, will also attend. The provincial and city police will for the occasion reinforce the regular staff of house officers, while the chamber again promises to be overtaken to accommodate the usual brilliant throng representative of British Columbia's best society, which is always conspicuously represented at such functions. Invitations to the opening have, as in all recent years, been limited to the official list, recipients of which invitations will be provided with seats on the floor of the house, while the ladies and visitors' galleries will be available to the general public.

New Railway Policy

Interest in the now opening session is peculiarly active by reason of the importance of various matters of legislation material to the development of the representative industries of the province, which will be presented for enactment during the session. The scheme of the well understood intention of the premier before his close to announce to the house, and through it to the country, the details of his new railway policy, through which it is hoped to promote a yet more rapid and beneficial era of development in conjunction with the opportunities created by the opening of the Panama canal.

Outstanding features of the session opening today, and which it is expected by the government will last but little longer than six weeks, are expected to be found in legislation for the ratification and endorsement of the recently completed revision and consolidation of the statutes; a new and comprehensive land act, a bill for the amendment of the Vancouver city charter making possible the introduction of a number of radical innovations in the scheme and methods of city government; a measure for the establishment of a department of forestry, and for the revision and perfection of the Bush Fires Act so as much more effectively to conserve and protect the timber resources of the country; yet other legislation providing for readjustment of provincial taxation; the necessary legislation preliminary to the establishment of a reformatory school for wayward girls; the completion of the incorporation of the city of Prince Rupert, and various private measures, the scope and tenor of which have already been outlined and are well understood by the major portion of the community interesting itself in public affairs.

It is also possible that before the close of the session the premier minister may be in a position to announce as he hopes to do the completion of an

TEACHERS IN COUNCIL

Convention at New Westminster Passes Resolution in Regard to Subsidy to Salaries

NEW WESTMINSTER, Jan. 10.—The closing session of the twelfth convention of the Coast Teachers' Institute was marked by a lively discussion over the following resolution: "That this convention favors the amending of the school act to require school boards to pay the salaries of teachers in case of illness of teachers for a period of 30 days."

Mr. Stewart, assistant superintendent of public instruction, strongly opposed the resolution, and said that the placing of such a law upon the statutes of the province would be an insult to all the boards of school trustees in British Columbia. He stated that in the history of all the boards of the province where the attention of the board had been called to deserving cases they had always been liberal in providing for the teachers, and with some specific instances, he urged the convention not to pass such a drastic and radical resolution.

After considerable discussion, in which several teachers gave instances of having been forced to pay for substitutes in cases of illness, the resolution was adopted.

Victoria will have the next convention.

LARGE VOTE IS EXPECTED TODAY

Electorate Make Choice of City Council at Polls—Important Financial Measures to be Voted Upon

Today Victoria electors will select their council for the present year and vote upon some of the most important financial measures yet to be submitted to the ratepayers. One of the keenest municipal fights will go into history when Returning Officer Northcott declares the polls closed tonight at 7 o'clock. All the necessary preparations for recording the large vote which is expected to turn out has been made and with the adoption of the separate ward polling places the voters are expected to find voting more convenient and expeditious. The result of this new system of voting will be awaited with interest. Polls open at 9 a. m. and close at 7 p. m. For the convenience of voters who are forced to leave the city it has been arranged that Mr. Beckwith's committee that the E. & N. train will postpone its departure until 9:15 a. m.

With anything like satisfactory weather conditions the vote will be larger than that of a year ago despite the fact that this year the number of voters is less than last year's. The committees for both candidates for the mayor's chair completed all their arrangements last evening and are prepared to get out every possible vote today. Mr. Beckwith, whose campaign has been productive of a daily growing enthusiasm on his behalf, has every confidence that he will be returned as mayor and the aggressive campaign which he has conducted, will, his friends aver, land him at the head of the poll. On the other hand, Mr. Beckwith's friends are confident that their candidate will secure the honors.

Mr. Beckwith's central committee rooms are located at room 4, German club quarters, Government street, directly opposite Traction alley. His ward committees are as follows: Ward No. 1, 1414 Store street; ward two, corner of Blanchard and Cormorant streets; ward three, corner of View and Quadra streets; ward four, 602 Broughton street; ward five, corner of Kingston and Main streets. Mr. Beckwith's friends have come forward with an ample supply of motor cars and hacks and scores of workers have offered their assistance. The full list of candidates is as follows:

For Mayor

Mr. J. L. Beckwith and Mayor Morley.

For Aldermen

Ward One—Alderman Ockell and Mayor Morley.

Ward Two—Alderman Humber and Messrs. John Meston and George Anderson.

Ward Three—Alderman W. F. Fullerton and Alderman W. A. Gleason and Messrs. Alex. Stewart and Christian Sivert.

Ward Four—Messrs. Herbert Cuthbert, William Baylis, Angus McKeown, Frank Leroy and Joseph H. Baker.

Ward Five—Messrs. Feden and Messrs. Robert Porter and John Dillworth.

Polling Places

The various ward polling booths have been located at the following points:

Ward One—W.C.T.U. Mission, 1410 Store street.

Ward Two—Public Market building, Commercial street.

Ward Three—Everett Garage, 821 View street.

(Continued on Page Two.)

HOUSE RESUMES ITS SITTING

Government Ready with Considerable Business for Attention of Members—Estimates Are Brought Down

OTTAWA, Jan. 10.—The House of Commons resumed its sitting this afternoon, the government promptly bringing down a considerable amount of business for its consideration. The Minister of Finance brought down the estimates, a number of blue-books were presented, and several returns were laid on the table and Premier Borden introduced a bill to place the department of external affairs under the Premier instead of under the secretary of state, as heretofore.

After a number of questions had been answered the House took up the motion for adjournment. Mr. Borden obtained an order for a copy of the recent memoranda relative to the improvement of Ottawa. In doing this he defended the improvement commission against the charge of mismanagement. In reply, Mr. Borden observed that the commission had not proceeded on a sufficiently comprehensive scheme.

Hon. Mr. Emmerson moved a resolution to the effect that it is desirable to the furtherance of the transportation interests of the Dominion that the sphere of influence of the intercolonial railway should be widened by the construction of a branch line connecting with it as will serve as direct and profitable feeders. In moving this, Mr. Emmerson enlarged upon the advantages of the opening of new areas by the addition of branch lines to the government system. Noting the Hudson Bay railway, he said that it would be of service to the transportation interests of the Dominion for four months only in the year.

Hon. Frank Cochrane said Mr. Borden would be found to be a premier who kept his promise, and the policy of the (Continued on Page Two.)

FRENCH CABINET HAS RESIGNED

Premier Caillaux Leaves Office Because of De Selves Incident—Secret Negotiations with Germany

PARIS, Jan. 10.—The downfall of the Caillaux cabinet came suddenly tonight. It was legally due, however, because of the failure of the premier to obtain timber to complete a political combination. The resignation last night of the foreign minister, Justin De Selves, which followed a dramatic scene at a meeting of the central committee, when M. De Selves declined to back up the premier in his statement regarding recent negotiations between Germany and France, resulted in immediate dissensions in the cabinet.

M. Caillaux accepted the inevitable, and announced to President Fallieres the retirement of himself and colleagues. Among the names mentioned as most likely for the new cabinet are MM. Delcasse, Bourgeois, Raynaud, Poincare, Millerand, ex-premier Briand and possibly ex-premier Clemenceau.

The Paris newspapers, which unanimously regret the De Selves-Caillaux incident as likely to do harm to the prestige of France, quickly lined up for and against the premier. The Liberte accused M. Caillaux of secret negotiations with Germany before the despatch of a German warship to Agadir, while he was minister of finance, and after the Agadir incident, while he was premier, the result of which would have been the transference of the Congo to Germany, the overthrow of all French foreign policies, the compromising of the dignity and security of France, both in Africa and in Europe, and the abandonment of the triple entente through the entente with Germany. Fortunately, the paper said, President Fallieres and Foreign Minister De Selves, learned of the project, which subsequently was allowed to drop. The Temps makes a strong defense of the premier in a page review devoted to "the real negotiations between France and Germany."

NAMES MENTIONED FOR NEW MINISTRY

PARIS, Jan. 10.—The downfall of the Caillaux cabinet came suddenly tonight. It was legally due, however, because of the failure of the premier to obtain timber to complete a political combination. The resignation last night of the foreign minister, Justin De Selves, which followed a dramatic scene at a meeting of the central committee, when M. De Selves declined to back up the premier in his statement regarding recent negotiations between Germany and France, resulted in immediate dissensions in the cabinet.

M. Caillaux accepted the inevitable, and announced to President Fallieres the retirement of himself and colleagues. Among the names mentioned as most likely for the new cabinet are MM. Delcasse, Bourgeois, Raynaud, Poincare, Millerand, ex-premier Briand and possibly ex-premier Clemenceau.

The Paris newspapers, which unanimously regret the De Selves-Caillaux incident as likely to do harm to the prestige of France, quickly lined up for and against the premier. The Liberte accused M. Caillaux of secret negotiations with Germany before the despatch of a German warship to Agadir, while he was minister of finance, and after the Agadir incident, while he was premier, the result of which would have been the transference of the Congo to Germany, the overthrow of all French foreign policies, the compromising of the dignity and security of France, both in Africa and in Europe, and the abandonment of the triple entente through the entente with Germany. Fortunately, the paper said, President Fallieres and Foreign Minister De Selves, learned of the project, which subsequently was allowed to drop. The Temps makes a strong defense of the premier in a page review devoted to "the real negotiations between France and Germany."

BRITISH COAL MINERS VOTE ON STRIKE

LONDON, Jan. 10.—Thousands of coal miners are voting whether there shall be a national stoppage of the coal mines in the United Kingdom. The result, probably, will be announced on January 18.

The ballot is to decide whether or not the men will give of a national strike, to begin on March 1. The leaders of the Miners' Federation are against the movement, but it is thought that the men will override them. The demand of the men is for a fixed minimum wage.

SECURITIES SAFE IN SMALL VAULTS

Search in Ruins of Equitable Life Building Gives Assurance—Larger Vaults Are Still Unopened

NEW YORK, Jan. 10.—More than \$500,000 in stocks and bonds were recovered from some of the smaller vaults in the burned Equitable Life Assurance society building today, but it probably will be a week, perhaps longer, before the great vaults of the society and those of the Mercantile Safe Deposit company give up their half billion or more in securities.

Further examination of the gaunt ice-encrusted building swept on Tuesday by fire showed this afternoon that the vaults are intact. In the opinion of those who made the inspection, an opinion reinforced by the discovery today that the smaller vaults had kept their treasure safe, their contents will suffer little, if any, loss. The vaults are, under hundreds of tons of ice and debris, it may be a week before it will be advisable to open them. Meanwhile, securities variously estimated in value from a billion to a half billion and a half dollars cannot be recovered. Special guards have been thrown about the building, and day and night they will be on duty.

The smaller vaults of the Mercantile Trust company were the ones opened this afternoon. It was soon found that the vaults are intact. The vaults could be entered, 50 clerks were dispatched from the Bankers' Trust company, a few blocks away, to transfer the securities. Between \$500,000 and \$700,000 in stocks and bonds were removed. The Bankers' Trust company owns the Mercantile Trust company.

Just what is the value of the securities still in the vaults is mere guesswork. It is known that the Bankers' Trust company has approximately \$100,000,000 in securities. There are of the Harriman estate in the vaults of the Mercantile Safe Deposit company are understood to approximate \$125,000,000. It is also said that Thomas Fortune, who is now in London, and the Gould estate practically a similar sum. It was said at George Gould's offices this afternoon that Mr. Gould had felt some anxiety about his securities, but they would be no loss, provided that there had been no loss. The Mercantile Safe Deposit company issued a statement saying that not only was everything in the vaults safe, but that in some places the paint on the vault had not been blistered. The vaults and safes of the Harriman lines are believed to be intact.

No trace had been found of the body of Battalion Chief William Walsh, nor had the body of Wm. Campbell, chief of the Mercantile guards, been recovered, although it is partly in sight. Tenants of the American National Bank building, across Cedar street, where the tremendous ruins may fall, have been ordered to vacate their offices.

Train Service Restored

PORTLAND, Ore., Jan. 10.—Train service on all lines leading east from Portland, which were demoralized by the recent storm was placed on normal schedule today. In Portland, with the exception of the outlying residence district, electric light and telephone service is practically restored. No flood conditions are reported to result from the mild weather now prevailing.

KING AND QUEEN SAIL FOR HOME

BOMBAY, Jan. 10.—King George and Queen Mary embarked tonight on the steamship Moyna, homeward bound.

ESTIMATES FOR COMING YEAR

Total Shows Reduction of Over Six Million Dollars from That of Current Year—Supplementaries to Come

OTTAWA, Jan. 10.—The main estimates for 1912-13 tabled this afternoon show a consolidated fund expenditure of \$104,919,304 and capital \$44,870,573, total \$149,789,877, compared with \$109,616,917, \$48,842,821 and \$158,459,738, the corresponding figures for the current year. There will be supplementary estimates later on.

LIBERAL AMOUNTS FOR THIS PROVINCE

Two New Vessels for Fisheries Protection Service and New Lighthouse and Buoy Steamer Provided for

OTTAWA, Jan. 10.—The main estimates for 1912-13 tabled this afternoon show a consolidated fund expenditure of \$104,919,304 and capital \$44,870,573, total \$149,789,877, compared with \$109,616,917, \$48,842,821 and \$158,459,738, the corresponding figures for the current year. There will be supplementary estimates later on.

Public buildings—Ashcroft public building, \$500; Chilliwack public building, \$35,000; Cranbrook public building, \$35,000; Dominion public building, \$35,000; Nelson public building, \$35,000; Prince Rupert public building, \$35,000; Prince Rupert, quarantine station, \$24,000; Queneau public building, \$30,000; Revelstoke public building, \$30,000; St. John's public building, \$30,000; Vancouver public building, \$30,000; Vernon public building, \$30,000; Victoria public building, \$30,000; William Head quarantine station improvements and repairs to buildings and furniture, etc., \$40,000.

Harbors and Rivers—Columbia and Kootenay rivers improvements, \$35,000; Columbia and Kootenay rivers wharves, \$35,000; Columbia river, survey from boundary with view to determine cost of rendering river navigable, \$10,000; Courtenay river improvements, \$10,000; Fraser river, to commence construction of training pier, \$200,000; Fraser river improvements, reconstruction and repairing dams at Nicomen slough, \$50,000; Fraser river (lower) improvements, \$50,000.

FOLLOW TRAIL OF SUSPECTS

Officers Tracing Movements of McNamara and Dean in Hope of Finding Hiding Place of Stolen Money

VANCOUVER, Jan. 10.—The detectives who are investigating the robbery of the Bank of Montreal at New Westminster are making inquiries at Victoria, Bellingham, Seattle, Tacoma, Spokane, Portland, Calgary and other towns to determine the actions of John McNamara and Charles Dean, while staying in these places prior to the time that the trail was picked up in Winnipeg.

Evidence has been secured to show that the men were in the places mentioned, and the officers are of the opinion that it is possible that a good portion of the loot may be cached in one or other of the cities. In view of the amount of money involved, there being \$240,000 unaccounted for, and that the reward offered by the Bank of Montreal for the recovery of any part of the money still stands, the officers are receiving much information from people in New Westminster and Vancouver who believe that they came in contact with the two men.

LOS ANGELES, Jan. 10.—The police and private detectives of Los Angeles are now hunting for Albert Anderson, alias Anderson, alleged to be the fourth member of the gang that blew the safe of the Bank of Montreal at New Westminster, B. C., on September 15, 1911, and secured about \$375,000 in cash and securities. That Anderson is or was in Los Angeles was confidentially stated by a message received by the officials today from San Francisco. The police stated that the telegram from San Francisco contained the information that the police there had bombed that city and were convinced that Anderson had escaped to Los Angeles in an auto. Anderson is alleged to be the pal of Albert Hoffman, ex-Dean, now under arrest.

(Continued on Page Two.)

WEATHER REPORTS

Toronto Meteorological Office to Be Placed in Close Touch With Bureaus in Europe

TORONTO, Jan. 10.—The meteorological office in Toronto will in the future be in close touch with weather bureaus all over Europe. Great Britain and the North Atlantic, and weather conditions all over the world will be received and recorded at the office twice a day. In this way storms can be traced and followed, and it will be possible eventually to warn people in the old country of the approach of storms from this side of the Atlantic. Arrangements have been made so that information will be transmitted through the United States weather bureau at Washington and the entire world thus will be in touch. The department at Ottawa is also co-operating and is placing the posts of the cables. The arrangement will be of the very greatest value in forecasting weather in Canada.

DROWNED ON MUDFLATS

SEATTLE, Jan. 10.—The body of John Deering, aged 26 years of age, was found today in the mudflats at Stanwood. Deering went duck hunting yesterday, and the position of his body caused the belief that he waded into the mudflats to pick up his quarry. His coat and gun were found a few feet away where he had laid them when he waded into the treacherous mud.

MARINE EXPERT SPEAKS OF PORTS

Mr. Nash, Representative of Great English Steamship Company, Thinks Well of Vancouver's Prospects

VANCOUVER, B. C., Jan. 10.—"Vancouver is bound to be the Liverpool of the American continent, and one of the leading ports of the entire Pacific coast." This is the prediction of Mr. E. J. M. Nash, an expert on matters pertaining to the merchant marine, who arrived today as the special representative for the United States and Canada of the Royal Canadian Mounted Police, with headquarters at London, and the world in general as an operating firm.

"Two ports on the Pacific coast will attain great importance within the next ten years," said Mr. Nash. "The choice lies, as far as I can see, between San Francisco, Seattle, Tacoma, Portland and Vancouver, and Vancouver will be one of the two, with the other ports fighting for second place. Vancouver is a free port for the shipping of the world, and everybody will enjoy equal rights and privileges, which is another strong factor with companies looking for terminal facilities. I should not be surprised at all if, for instance, the C. F. R. and other transcontinental railways were to begin by running a water-an area greater than that in the coastline, steamship line, say from Montreal to Vancouver through the canal to protect their own freight business over the Canadian continent. American railways might also find it expedient to run steamship lines from New York to San Francisco to guard their interests, and it is hardly likely that they will ignore Vancouver as a most desirable port, but, of course, the coastwise laws of the United States may be against it. But this would only add to the importance of this port from a Canadian point of view."

"Coming back to our own company, which owns today 325 ships, with an aggregate tonnage of 1,340,000, and employs the entire globe, we feel that we must adjust our routes according to the new conditions arising with the opening of the Panama canal. We are now the only company maintaining docks at Panama and Colon, and when we look over our routes as they stretch from one corner of the known world to the other, Vancouver is not likely to be overlooked."

"Regarding the plans of the Canadian Northern, of which I have heard a great deal spoken while in San Francisco, I must confess that I have no official information on the subject, but it would not be at all unlikely if the Canadian Northern were to run steamers from England to Canada via Vancouver or from Vancouver to the Orient. But the Canadian Northern will not be the only company wise enough to recognize Vancouver's wonderful location."

Fifty Years Ago Today

(From The Colonist of January 11th, 1865.)

It has been ascertained that the funds of the Industrial Exhibition committee are just short £180 (\$800) by the treasury defalcation. The House of Assembly yesterday granted an additional £100 for the benefit of the exhibition. MAY 11.

Yesterday, from early morn to dawy eve, crowds of men and boys were congregated on the corners of the dock, traveled the highroads, and were the great of snow-laden sleighing parties as they glided swiftly by. About 4 o'clock, however, the tables were turned by a party of men in a sleigh, who poured in volleys of rotten eggs into the crowd as cause of the mischief in every direction. It was a clear case of the bitter bit, and both sides lost it good humoredly.

We defy any one who read the spirited resolutions of the legislative council, published in the Colonist, to find a single word of violence in the executive. The council, in language which admits of no two meanings, distinctly and emphatically condemned the recent conduct of Mr. Garry in submitting a statement to the executive was authorized to do so by legislative enactment.

BIG HARBOR IMPROVEMENTS

Appropriation of \$500,000 in Estimates for This Year's Work of Enlarging Port of Victoria Facilities

OTTAWA, Ont., Jan. 10.—The preliminary estimates will provide five hundred thousand dollars for the Victoria, B. C. harbor improvements, this being considered a sufficient amount to get the work well started this year. It is understood that the completed improvements now in contemplation will bring the total expenditure up to from three to five million dollars. The work which will be undertaken according to the present plans of the government engineers will be the construction of the breakwater from Brothie ledge and a general system of harbor improvements. The securing of this early recognition of the rights of Victoria to harbor improvements is due to the efforts of Mr. G. H. Barnard, M. P., who has been insistent in advocating the necessary of an early start on the harbor works so that Victoria will be in a position to handle the trade which will develop with the opening of the Panama canal.

BREAKWATER FROM BROTHIE LEDGE

Government Provides for Progressive Scheme Involving Expenditure of from \$3,000,000 to \$5,000,000

Following representations by Mr. G. H. Barnard the member for Victoria, Mr. Louis Coste, M. P., E., the noted Canadian harbor engineer, was sent here to investigate the requirements of the port. After making a thorough investigation he formulated a plan for the construction of modern harbor works and returned to Ottawa to report to the government. The prompt action taken by the Dominion government in placing half a million dollars in the estimates to begin this work indicates that his plan has been accepted in toto, and the sum placed in the estimates is the initial yearly amount to begin the work. It will be followed yearly by similar appropriations to carry the work to completion.

Two Breakwaters

The plan, which Mr. Coste is understood to have recommended to the government, provides for the construction of two breakwaters, one to extend from the vicinity of Ogden point, and another from some point to the westward of McLaughlin point, or thereabout, sheltering a large area of water—an area greater than that in the coastline, steamship line, say from Montreal to Vancouver through the canal to protect their own freight business over the Canadian continent. American railways might also find it expedient to run steamship lines from New York to San Francisco to guard their interests, and it is hardly likely that they will ignore Vancouver as a most desirable port, but, of course, the coastwise laws of the United States may be against it. But this would only add to the importance of this port from a Canadian point of view."

"Coming back to our own company, which owns today 325 ships, with an aggregate tonnage of 1,340,000, and employs the entire globe, we feel that we must adjust our routes according to the new conditions arising with the opening of the Panama canal. AGAIN PRESIDES OVER SCHOOL BOARD

For Seventh Consecutive Year Mr. George Jay is Chairman of Board—First Meeting of Term

For the seventh year in succession, Mr. George Jay will preside as chairman over the destinies of the school board. At the first meeting of the newly elected board held last evening in the school board offices, Mr. Jay was unanimously and enthusiastically tendered the honor in recognition of his long and successful work on the board. Mr. Jay accepted it with pleasure, at the same time taking occasion to congratulate the board on the fact that its candidates had been returned without opposition and while regretting that Mr. Christie had seen fit to retire from the work welcomed as a new member Dr. G. A. B. Hall, expressing the belief that the latter's long experience in school affairs will be of great value to the board this year. With the exception of Trustee McNeill all the new members of the new board were present. Little but routine work was transacted. The return of the returning officer, Mr. W. W. Northcott, declaring the new trustees elected by acclamation were read.

A communication from the secretary of the North Vancouver school board recommending an architect of that town as a fit candidate for the position of school architect, a position which the local board will soon create, was filed, the local board being of the opinion that there are plenty of competent architects in Victoria from whom to make a selection.

Tenders for various school supplies were received from the Victoria Book & Stationery Company, Messrs. Swaney & McCounsell, Mr. O. B. J. Lane, Messrs. Hibben & Co. and Messrs. Baxter & Johnson. These supplies consist of paper, pens, pencils, ink, crayons, etc. The bids were referred to a special committee composed of Trustees Mrs. Jenkins and Standland.

The appointment of the various standing committees for the year will be made and submitted at the meeting of the board next Monday evening by the chairman.

A school board annual report consisting of data relating to the board, the financial statement, etc., will be prepared by the superintendent, Mr. E. B. Paul, and the secretary, Mr. Pope.

LARGE VOTE IS EXPECTED TODAY

(Continued From Page One.)

Ward Four—Old Cusack Printing building, 614 Courtney street.
Ward Five—Drill Hall, 431 Menzies street.

The Bylaws

The important financial measures on which property owners only shall be entitled to vote, are:

The "High School Loan Bylaw,"
The "Water Works Loan Bylaw,"
The "Water Works Loan Bylaw,"

1912.

The "Sewer Loan Bylaw," 1912.

The "Oak Bay Avenue Widening and Expropriation Amendment Bylaw," 1912.

The "Charitable Institutions Expenditure Bylaw," 1912.

The "Bylaw to Amend Bylaw 99, Being Public Library Bylaw," 1907.

The "Parks Expenditure Bylaw," 1912.

The "Civic Centre Referendum Bylaw."

The Referenda

Three important questions are also before the electors, the following matters, a majority of the votes cast being sufficient to carry any one of them:

1. "Shall the Ward System be abolished and the Aldermen be elected from the city at large?"

2. "Are you in favor of the adoption by the city of a Commission form of Government?"

3. "Shall all Liquor Licenses be issued on condition that sales thereunder shall be made only between the hours of 8 a. m. and 6 p. m. except on Saturday, when the hours for closing shall be 12 o'clock noon, and not to be reopened until Monday at 8 a. m., excepting such exceptions as may have to be made by virtue of Section 74, Subsection "C" of the Liquor Act, 1910?"

ESTIMATES FOR COMING YEAR

(Continued From Page One.)

ments, \$10,000; Fraser and Thompson river wharves, \$20,000; harbors, rivers and bridges, general repairs and improvements, \$15,000; Hardy Bay wharf, renewals, \$1500; Harrison river improvements, to pay the Brook-Scanlon Lumber company for cutting and to complete the work, \$8000; Hollyburn, North Vancouver, wharf for the north side of English bay, \$6000; Lasqueti bay, wharf, \$2500; Lockport, Queen Charlotte Island, wharf, \$5000; Massett, Queen Charlotte Island, wharf, \$2500; Mill bay wharf, \$2500; Naas river, removal of rocks, \$2000; Needles wharf, \$7500; Okanagan river, protecting and improving navigable channel, \$7500; Prince Rupert quarantine wharf, \$60,000; Sidney Island renewals and renewals to wharf, \$2500; Stewart head of Portland canal, wharf, \$3000; Upper Fraser river and tributaries, improvement of navigable channel, \$20,000; Upper Lillooet river, removal of obstructions, \$3000; Williams Head quarantine station improvements, \$10,000.

Telegraphs, etc.: Golden-Whidder telegraph line, \$500; Kamloops to Wallachin telegraph line, \$5,000; Okanagan Valley telegraph system, \$4,750; telephone line between Kaper and Thetis lakes, and Okanagan Valley, \$1,000; Vancouver Island telegraph, \$5,000; telegraph lines generally, \$7,000.

Two new vessels for fisheries protection, British Columbia coast, \$275,000.

Unannounced sum for improving the west coast trail, Vancouver Island. To provide for lighthouse and buoy steamer, Pacific coast, \$125,000.

The B. C. provincial subsidy rises to \$713,780. Protection of timber on prairie and the railway belt, \$355,000; water power investigation on prairies and railway belt, \$110,000; Canadian national parks, \$225,000.

Among the important general appropriations are: Public works, \$1,530,380; militia, \$8,334,450; subsidies to provinces, \$10,281,042; railways and canals, \$11,853,015; arts, agriculture and statistics, \$1,245,500; immigration, \$1,215,250; mail subsidies, \$12,082,600; naval service, \$3,091,500; ocean and river service, \$1,265,400; light house and coast service, \$2,776,300; fisheries, \$1,015,200; Indian, \$1,015,200; Canadian land and parks, \$2,446,100; post offices, \$9,665,100; transcontinental railway, \$25,000,000; Quebec bridge, \$5,000,000.

HOUSE RESUMES ITS SITTING

(Continued From Page One.)

Government would be to take over such lines as would move feeders and not milkers.

Hon. William Fugatey attacked Mr. Cochrane for this attitude. He was sorry the government intended to consider the greater facilities purely from a standpoint of revenue. Mr. Cochrane replied that the resolution stipulated that feeders must be profitable. Mr. Fugatey insisted that the government should not be limiting the acquisition of branch lines.

Premier Borden said Mr. Emmerson's resolution had been accepted by Mr. Cochrane in the very terms used by him, and the government was perfectly willing to accept Mr. Emmerson's resolution. Hon. Mr. Fugatey drew attention to the discrepancy between the attitude taken by Mr. Emmerson and Mr. Fugatey.

After the speech by Mr. Emmerson the resolution carried and the house adjourned at 5:30 o'clock.

FOLLOW TRAIL OF SUSPECTS

(Continued From Page One.)

rest here for connection with the robbery, and with whom he had traveled all over the country, eluding the officers since the robbery occurred.

Mrs. Mina Griffin, the woman who was with Dean when he was arrested Saturday, has disappeared, and is believed to be in San Diego.

RATE DISCRIMINATION

Eastern People Favored in Matter of Telegraph Tolls—Curious Arrangements as to Cables

OTTAWA, Jan. 10.—That the Eastern people might well congratulate themselves on the telegraph rates as compared with those in force in the west, was brought out at today's session of the inquiry into telegraph tolls before the railway commission.

The Canadian Pacific company's telegraph tariff book occupied practically the whole afternoon's sitting. The question of additional words in messages came up, and it was shown that while the rate was 25 cents for 10 words and one cent for each additional word, in Ontario and sections east, it was 25 cents and two cents for each word over 10 in every other section of the Dominion. The rates in Ontario and sections east is 25 cents for 25 words, while in sections west it is 25 cents for 10 words and one cent extra for each additional word.

The matter of cable messages was also taken up. A cable to England from anywhere west of the Manitoba boundary, costs 35 cents per word, of which the Canadian Pacific railway gets four cents and the Commercial Cable company gets 21 cents. When one steps over the Manitoba boundary and sends messages, however, there is an additional charge of nine cents per word, bringing the cost to 44 cents per word. Of this the C. P. R. gets nine cents and the Cable company 25 cents, although the latter performs exactly the same service as that for which in the first instance it charges only 21 cents. In Saskatchewan, Alberta and British Columbia an additional rate of 12 cents is charged over Ontario rates.

The inquiry will be continued tomorrow.

CUTTER WRECKED

U. S. Vessel Guard Strikes Rock in San Juan Group and Is Likely to Be Total Loss

SEATTLE, Jan. 10.—The U. S. revenue cutter Guard struck on Friday Harbor to Richard, and is believed she will be a total loss. The life-saving steamer Shohomish has gone to pick up the crew of the Guard.

The Guard, in command of Captain J. N. Woolford, was en route from Friday Harbor to Richardson, and was carried on the rock by the tide. She was held fast on the rock and a large hole was torn in her side. When the tide went out the little vessel turned over and is filling with the incoming tide. Capt. Woolford reports that his vessel will probably be a total loss, although her machinery may be saved.

The Guard was built at Port Townsend in 1896 and was used to patrol the lower sound. She was of 30 tons register, was 60 feet long, 10 feet beam and five feet draft.

Will of Wm. C. Greene

LOS ANGELES, Jan. 10.—The will of the late William C. Greene, known as the "Mining King" of Canada, Mexico, who died in Cananea on August 5 last, was filed for probate here today. Colonel Greene directed that all of his property, personal and real, be given to his wife, Mary Procter Greene.

Ontario Mayor-Elect

TORONTO, Jan. 10.—The Ontario government has decided not to place the hydro-electric system under a cabinet minister, as proposed, but to leave the conduct of the affairs in hands of a commission, as at present.

C. P. R. AND NANAIMO

Board of Trade Discusses Report That Nanaimo May Will Become Shipping Centre

NANAIMO, Jan. 10.—The Nanaimo board of trade met in general session last night, there being a large attendance, and a discussion of many matters of importance. A report was received from the harbor committee recommending that a wireless station be erected immediately on Nob Hill in this city in the interests of safeguarding shipping of the east coast of the island. A petition was presented, and will be forwarded to the minister of public works at Ottawa. A motion approving of the same was adopted by the meeting. A clipping from the Pioneer News of Alberta regarding the opening of railway traffic to the west coast, which concluded by saying that Nanaimo Bay would be the shipping centre for Vancouver Island, was read to the meeting. The clipping causing considerable discussion. Aid. Shepherd was of opinion that Nanaimo Bay was to be used as a shipping port for goods, and not for passenger traffic, and the C. P. R. intended putting on another steamer, which would mean a double service between Nanaimo and Vancouver. Mayor Plante remarked that it would be to see the C. P. R. have some interest in Nanaimo, that it might take a deeper concern in the welfare of the town. Otherwise he felt it would be better if some other company opened, put competition between the island and the mainland. After appointing various committees the meeting adjourned.

The twelfth annual exhibition of the Nanaimo Poultry Society was opened to the public last night, by Mayor Plante. It is from an exhibition standpoint the best in the history of the society. The entry lists some 700, is the largest on record. The outside entries include—Victoria, Vancouver, Wellington and London, are unusually numerous and the quality of the birds is fully up to the high standard set by Nanaimo shows in the past. The judges have also expressed themselves as highly satisfied with the high order of the quality of birds shown, and judging of the feathered flock will commence this morning.

At four minutes past 11 last night many residents of this city were startled by a disturbance which gave every indication of an earthquake. In many homes dishes rattled and buildings were shaken, the disturbance lasting for several seconds.

DESTROYERS SAFE

Little U. S. War Vessels Tuck Up at Bermuda and Bonaire Roads, Crippled

HAMILTON, Bermuda, Jan. 10.—A message has just been received from the United States tender fleet, reporting the missing torpedo boat destroyer McCall, and the cruiser Birmingham approaching Bermuda. They are expected to arrive here tomorrow morning.

NORFOLK, Va., Jan. 10.—The scout cruiser Salem, which suffered in the recent storm at sea, and the auxiliary cruiser Prairie towing the disabled torpedo boat destroyer "Roe," arrived in Hamilton roads late today. The "Salem" and the "Roe" both will go to the Norfolk navy yard for repairs.

MURDEROUS HOLD-UPS

Desperadoes in Portland Shoot Down Two Officers and Two Bystanders and Escape

PORTLAND, Ore., Jan. 10.—Three highwaymen held up two pedestrians at Park and Oak street, in this city, compelled the proprietor of the La Salle hotel at Tenth and Burnside streets, under force of arms, to hand them \$25 from his till, and quickly escaped to a saloon at First and Burnside. They shot Patrolman Amundsen, Special Officer Edward Gasset and two bystanders, all within a few minutes, shortly after 1 o'clock this morning. They escaped after the shooting, and at an early hour this morning had not been captured.

France's Population

PARIS, Jan. 10.—Official returns of the national census taken last year show that the population now numbers 39,801,709 as compared with 39,252,115 in 1906.

Veteran Burned to Death

SEATTLE, Jan. 10.—Thomas Bainbridge, aged 73, a veteran of the Civil war, was found dead to death in his cabin today. Bainbridge was last seen alive on Monday.

American Troops for China

MANILA, Jan. 10.—Major General J. Franklin Bell, commanding the Philippine division, hopes to despatch the transport Logan at noon on Thursday for China with the first battalion of the fifteenth company. The troops, numbering about 500 men, will board the Logan tomorrow, but as there is a great deal of work to be done before sailing it is more than probable that the departure may be delayed until evening.

To Guard American Interests

WASHINGTON, Jan. 10.—Impressed by the rapid extension of the revolutionary disturbances in Ecuador, the administration is contemplating the despatch to Ecuadorian waters of a naval force, perhaps an entire division of the Pacific fleet. At present the only warship looking after American interests is the little gunboat Yorktown, which arrived Sunday at Guayaquil. Reports have reached Washington of the threatening attitude of some of the Ecuadorian factions toward American interests.

San Francisco Street Orators

SAN FRANCISCO, Jan. 10.—More than 3000 persons who gathered downtown tonight to see street lighting between the police and men who had announced their intention of violating the new ordinance prohibiting street speaking in the business section met disappointment when the city authorities drove in their horns and declined to arrest anybody. Many speeches were held, but the spice of the demon had vanished and the crowd went home.

**The Fountain Head of Life
Is The Stomach**

A man who has a weak and impaired stomach and who does not properly digest his food will soon find that his blood has become weak and impoverished, and that his whole body is improperly and insufficiently nourished.

DR. PIERCE'S GOLDEN MEDICAL DISCOVERY makes the stomach strong, promotes the flow of digestive juices, restores the lost appetite, makes assimilation perfect, invigorates the liver and purifies and enriches the blood. It is the great blood-maker, flesh-builder and re-constitutive nerve tonic. It makes men strong in body, active in mind and cool in judgment.

This "Discovery" is a pure, glyceric extract of American medical roots, absolutely free from alcohol and all injurious habit-forming drugs. All its ingredients are printed on its wrapper. It has no relationship with secret nostrums. Its every ingredient is endorsed by the leaders in all the schools of medicine. Don't expect a secret nostrum as a substitute for this time-proven remedy of known composition. Ask your neighbors. They must know of some cure made by it during past 40 years, right in your own neighborhood.

World's Dispensary Medical Association, Dr. R. V. Pierce, Pres., Buffalo, N. Y.

MEMBERS ARRIVE FOR HOUSE OPENING

Many of Them Register at Empress Hotel and Exchange Greetings—Animated Scenes

All roads led to Rome in the old days. Yesterday all roads led to Victoria, the occasion being the assembling of the provincial parliament. By virtue of the capital city's location in the province most of the "roads" were routes and the mode of travel that of steamer rather than train or motor car. In the course of the afternoon and evening colleagues on the legislative benches from such widely divergent places in the province as Golden and Comox, Nanaimo and Carleton Place, the members of the Empress and exchanged greetings and courtesies prior to settling down to the strenuous work of the session.

The diningroom at the hotel was convulsed with evidence of the assumption of parliament for at practically every other table there was either one or two members of the house. The members of the legislature of hosts and later on scattered throughout the rotunda and the main room could be seen little courtesies friends surrounding a member and plying him with questions as to what the forthcoming session would mean to the development of the province. In order to convey some idea of the comprehensiveness of the little assembly of members in the hotel the following list was carefully culled from the register, and while it by no means represents the number of members who have reached the city ready for the opening ceremonies today, it will serve to illustrate the "hot" nature of the aspect which this hotel assumed on the day prior to that significant occasion: Messrs. C. E. Tisdall, Vancouver; H. Wright, Nelson; W. J. Manson, Dawson City; J. A. Fraser, Carleton Place; A. Lucas, Yale; H. Parsons, Golden; M. Manson, Comox; and W. H. Hayward, Cowichan.

In a brief talk with Mr. Tisdall, one of the members for the city of Vancouver, a Colonial representative was informed that the main object of the mainland city members during the present session would be the opening up of the northern country by means of the railway construction through the Pemberton Meadows into the Peace River country. In accordance with the request of the deputations which waited upon the executive the other day. Another point that will be featured by them is the alteration or amendment of the city's charter so that it will be possible for the city to be governed by commission. Of course the city council of Vancouver is behind that idea, and the members of the legislature are merely carrying out the wishes of the people as expressed by their municipal representatives. Apart from the provincial legislation Mr. Tisdall stated that staunch support would be given the government's policy for a continuation of the roads and bridges construction throughout the province. Last year the city of Vancouver and a half million dollars was spent in this way and it is understood that during the present session that policy which is so much to the development and settlement of the province will be extended in a most serious fashion.

In short conversations with several of the other members in the hotel the Colonial representative was informed that the prospects for the coming year in all the localities represented, were exceedingly bright. Each of them was armed with particular ideas for the betterment of his constituency but in their conversation they all evinced a modest, unassuming attitude, expressive of confidence that the best possible would be done by them by the government.

A WARNING TO ALL CONCERNED

Certain discoveries have been made during the course of the year 1911, which place the civic elections of the past few years in a very questionable light.

It appears that the names of property owners on the lists had been voted by other persons than those legally entitled to do so, and not merely in isolated cases, but on such a scale as to materially affect the results of the elections. It is believed that the same kind of personation will be attempted today, and notice is therefore given now that a rigid scrutiny of the vote cast today will be demanded for the purpose of ascertaining and proving the extent to which frauds are practiced in the city elections.

The penalty for personation is six months imprisonment or fine of \$200. The penalty for making a false declaration, being a criminal offence, is punishable by fourteen years' imprisonment.

FACILITATE CLEARANCES

Shipowners at Vancouver Want Mosquito Fleet Removed from Operation of Customs Rules

The Shipowners Association of British Columbia has been waiting on H. H. Stevens, M. P. of Vancouver, with a petition to have the coasting vessels in the Mosquito fleet removed from the operation of the customs regulations, which provide that they must enter and clear each time at every port. It was pointed out that tow-boats leaving here for a nearby port, and taking advantage of the tide on arriving after a three-hour run in the night have to wake up the customs man to enter and clear again, and on picking up another tow at another port a short distance away to catch the return tide, have to repeat the performance. The shipowners asked that this regulation for purely domestic business should be rescinded and the vessels allowed to run under a six months' permit, similar to the regulations in force on Puget Sound.

IKHALIS ORDERED HERE FOR MEXICAN SERVICE

One of the Welford Steamers Now at Quayside Coming North to Join Lonsdale in This Line

The steamer Ikhali, one of the Gulf transport steamers of J. H. Welford & Co., which left Bridgetown, N. J., on November 8, for the west coast of South America, and was last reported at Quayside a few days ago after calling at Montevideo, Valparaiso and Coronel, has been ordered to Victoria to join the steamer Lonsdale in the Canadian-Mexican line, pending the arrival of the Ikhali, which will also enter this trade. Mr. J. H. Welford took over the controlling interest in the Canadian-Mexican line at the beginning of the year. It is anticipated that this line will use the Panama canal when that waterway is completed.

Sale Prices in the Mantle Department

To get better sale values is impossible, to expect better sale values is unreasonable

The most minute and extended description would fail to convey an adequate idea of the HUGE savings that can be made in our Mantle department. Only those who visit us can learn the full meaning of our JANUARY CLEARANCE.

Afternoon and Evening

Dresses

Afternoon Dresses of exceptional beauty and distinction, very specially marked down to January Sale Price of.....\$10.00

In this sale are also included expensive imported models including the rich velvets.

EVENING DRESSES

Space will not permit of our detailing the glories of our Evening Dresses and, moreover, most ladies are fully aware of our showing in this line. We would say, however, that regular prices run up to as high as \$75.00, with January Sale prices ranging from.....\$12.50

Tunics—These too have suffered proportionate price reductions.

Opera and Restaurant Cloaks

The loveliest of Opera and Restaurant Cloaks that always and easily sell for up to \$75.00, now brought down to the insignificant prices of \$15.00, \$20.00, \$25.00, \$30.00, \$35.00, \$40.00, \$45.00, \$50.00, \$55.00, \$60.00, \$65.00, \$70.00, \$75.00, \$80.00, \$85.00, \$90.00, \$95.00, \$100.00, \$105.00, \$110.00, \$115.00, \$120.00, \$125.00, \$130.00, \$135.00, \$140.00, \$145.00, \$150.00, \$155.00, \$160.00, \$165.00, \$170.00, \$175.00, \$180.00, \$185.00, \$190.00, \$195.00, \$200.00, \$205.00, \$210.00, \$215.00, \$220.00, \$225.00, \$230.00, \$235.00, \$240.00, \$245.00, The Daily Colonist.

The Colonist Printing and Publishing Company, Limited Liability.
1211-1215 Broad Street, Victoria, B. C.

J. R. H. MATSON.

THE DAILY COLONIST

Delivered by carrier at 60 cents per month if paid in advance; 65 cents per month if paid after the 15th of each month. Mailed post-paid, to any part of Canada, except the city or suburban districts, which are covered by our carriers or the United Kingdom, at the following rates:

One Year \$5.00
Six Months 2.50
Three Months 1.25
London Office: 50-52 Fleet Street.

Manuscript offered for sale to The Colonist must be addressed to the business office otherwise the company will not assume the responsibility of the return of same to the author. M. R. & Co. accepted by other than the business manager will not be paid for.

Thursday, January 11, 1912

HARBOR IMPROVEMENTS

Mr. G. H. Darnard, M.P., has telegraphed the Colonist from Ottawa that \$300,000 will be included in the estimates for harbor improvements at Victoria. It will be recalled by some of those who discussed the subject with Mr. Coste that he said he would recommend an outlay of about that sum for the first expenditure. In view of the large amount of preliminary work to be done, we think the half million is quite as much as could be satisfactorily expended in the first year. We may reasonably expect that future appropriations will be as much larger than this first sum as can be profitably and advantageously expended in such a work. The rate at which the proposed improvements can be pushed forward will depend a good deal upon the development of the first year's operations. We congratulate the citizens very heartily upon the success that has attended Mr. Darnard's efforts, which was so strongly backed up by the people of the city. What has been accomplished meets everything that could be wished. The Dominion government has been very prompt in acceding to the desire of the citizens and its course will make it many new friends.

Mr. Darnard is a member who is accomplishing things and accomplishing them rapidly. Since going back to Ottawa he has arranged for the purchase of a site for an experimental farm in the Saanich peninsula; he has arranged for improvements to the post office and the leasing of the Ames-Holmes building to be used as an examining warehouse. Through his efforts a grant has been obtained to further the work of seismic research in Victoria, and now comes the most important announcement of all. There is little doubt that he could not have secured anything which will be more popular. It has always been the ambition of those Victorians who have the interests of their city at heart to make it a great port. It possesses unusual natural advantages, and all that was required was the commencement of a scheme such as is foreseen in the Ottawa despatch which we print today. With an expenditure of from \$300,000 to \$5,000,000 on this port, there is not the slightest doubt that it will be in a position to take its rightful place in the future commercial activity on the Pacific coast.

THE ESTIMATES

British Columbia has just reason to congratulate herself on the share which she has received in the federal estimates. In no previous year have the appropriations for this portion of the Dominion been so large, and we venture to say that they have never been more equitably distributed from the standpoint of requirements in the different districts. It is obvious that the government of Mr. Borden has recognized the fast growing importance of the furthest west and that it intends to do its duty in catering to the needs of the populated centres. This province has had just reason to complain in years gone by of inadequate attention from the Ottawa authorities. Perhaps the neglect to which we have had to submit makes our appreciation of the present recognition all the greater. Certain it is that the large amount of money which the government intends spending in British Columbia during the present year will assist materially as an impetus to the new era of development upon which the province has entered.

Elsewhere we have dealt with the importance of the grant made for harbor improvements at this port. There are other appropriations also which are of especial interest to this city. One of these is the setting aside of a sum of \$275,000 to provide for two new vessels for the fishery protection service on this coast. It is not unreasonable to hope that one or both of these will be built at Esquimalt. They will have their headquarters here and will help to still further swell the tonnage of the port. Then there is a sum of \$125,000 for lighthouse and buoy work, and it is presumed that this amount covers the shelter stations to be erected at intervals along the unprotected part of the West Coast of the Island. The

and doubtless the proposed improvements to the post office here will render the service much more efficient than in the past.

Speaking from the provincial standpoint, an item of particular interest in the estimates is the increase in the subsidy given by the Dominion to the province. This is now \$713,780. Last year it was \$522,076.66; so that the current appropriation is nearly \$200,000 more. Vancouver gets \$500,000 for harbor improvements and also a substantial sum for an examining warehouse in that city. It is doubtful if there will be any legitimate complaint from any section of the province because it seems as if all have been dealt with fairly, and in proportion to the necessities arising out of substantial growth.

THE SESSION

We do not look for a very long or very busy session, that is so far as new measures are concerned. It is generally understood that the government proposes to give assistance to certain railway projects, and we suppose the speech of His Honor the Lieutenant-Governor will contain a reference to that intention, although it would be unreasonable to look for the details of what the legislature will be asked to sanction. Legislation having been promised in accordance with the report of the Forestry commission, we may anticipate that this will be indicated in the speech, and that there will be some reference to the consolidation of the statutes and the establishment of a water board to deal with water rights throughout the province. Reference may be expected to the work of the Commission on Taxation, but we hardly look for any legislation to give effect to its recommendations at the forthcoming session.

Speeches from the Throne are as a rule, merely formal affairs and the pleasant custom has grown up of reviewing in general terms some of the conspicuous features of the preceding year. Among these at this time, the Coronation of His Majesty will necessarily occupy a conspicuous place. An event of this kind necessarily falls within the scope of a gubernatorial speech. So also do the changes that have taken place in the governor-generalship, and there may be an appreciative reference to the former and present incumbents of that high office. The general prosperity of the province can hardly fail to be the subject of a paragraph, for it is a great outstanding fact. We may expect something to be said about the remarkable expansion in public works, and there will doubtless be the customary mention of the public accounts and the estimates to be voted. The reservation of Strathcona park and the settlement of the Songhees reserve problem might naturally form a subject of passing reference, as well as the visits paid by the premier and the attorney-general to Ottawa and London.

There will be much interest in what ever the lieutenant-governor may say in respect to the future plans for the university. We are not able to suggest at present any other subjects that may be dealt with in the speech. This document is more a formal way of indicating that the house has been convened for business than anything else. We anticipate that the government will have its work well in hand, so that there will be as little delay as possible in getting down to work. The expedition and business-like methods, that have characterized the sessions of the house since the present administration came into office, will undoubtedly be repeated this year.

TODAY'S DUTY

This may easily be made an important day in the history of Victoria. It will be so, if the citizens determine to install in office an administration that will work harmoniously for the city's welfare. We have grave apprehensions of the result of continuing the conditions that have existed during the past two years. Arrogance grows from what it feeds on, and if the arrogance that has marked the conduct of the Chief Magistrate is fed with further success, the situation may easily become intolerable.

Never before in its history has Victoria had greater need of a mayor, who will endeavor to discover ways in which he can work with every organization and all progressive citizens for the promotion of its moral and material welfare. We need a mayor who will not be jealous of everything which he himself does not originate. We need a mayor who will not seek to dominate the city council. We need a mayor who will, while dealing out even-handed justice to all, see to it that those who enjoy privileges and franchises within the city shall use them to the public advantage and as little as possible to the public inconvenience. The present incumbent of the office said a few nights ago something to the effect that he had brought the H. C. Electric to time by threatening expropriation. A threat of expropriation from such a source would have about as much effect upon the

orbit of a comet. Moreover so far as we have been able to observe the company has not been brought to time in any respect. The way to deal with that company and every other company or individual enjoying franchises and privileges is, to approach them as reasonable people ought to be approached and make them realize what the public expects of them. Idle threats only provoke resistance. Give them when the citizens wish to expropriate the property of the B. C. Electric they will do so, not because the company is not giving as good a service as it ought to, but because they have determined upon adopting the principle of public ownership of public utilities, a point which the citizens have not yet reached, but to which we hope they will attain by and by. Just now the citizens have too much else on hand to think of engaging in a policy of municipal ownership and the officers of the company know it as well as any one. But the officers of the company also know perfectly well that their directorate would not stand out against an expression of public opinion presented by the representatives of the citizens, and the citizens know it, too. There is no stronger factor than intelligent public opinion presented with reason and forcefulness. While we make these observations in connection with the H. C. Electric we intend them to be of general application. They hold good as to the city's relations to the Esquimalt Water Works Company, which supplies Victoria West to the railway companies; to the Telephone Company; to the provincial government; to the Dominion government; to every body and individual having to do with the welfare of the city. Towards these it is the duty of the city administration to adopt a policy, not of antagonism, but of reasonable insistence upon the rights of the citizens. Every franchise and privilege carries with it certain obligations; every legislative authority carries with it the burden of discharging it in the public interest.

The moral welfare of the city is a matter that calls for grave attention. But the impression conveyed by certain people that the law does not already provide safeguards is without foundation. The mayor is a member of the police and licensing boards, and if there is any laxity in the execution of the laws for the regulation of the sale of intoxicants and the control of vice, he is responsible to the citizens. If drunkenness is on the increase, as is alleged, the law regulating the sale of liquor must be violated and the police and licensing boards have between them power under the law as it stands to prevent it. If liquor is being sold to minors, and it cannot be stopped, the continued sale is tantamount to a confession of incapacity upon the part of the police and those to whom the police are responsible. A mayor, who was really in earnest to stop this infamy, could stop it. Men would not dare violate the law if they knew that those charged with administering it were determined that its provisions shall be respected. There are other evils that are more difficult to control than these, but even they can be kept from being conspicuous if the authorities so desire. If we wish to have a city that is as morally healthy as it can be made, let those who are clothed with authority see to it that the laws we have are administered as the legislature intended. There has been altogether too much laxity in this respect in the past, too much talk and too little result.

We believe that if Mr. Beckwith is elected mayor today he will meet the wishes and needs of the citizens as has been above set out. He will work sympathetically with those who seek to promote the advancement of the city. He will use his influence and authority as mayor and as a member of the police and licensing boards to see that the moral tone of the community is kept elevated. He will endeavor as far as in him lies to see that public service corporations give the public the best service that can reasonably be expected of them. He will endeavor to meet the wishes of the citizens in regard to how powers to be exercised by those responsible for the good government of the city, but this will not prevent him from turning to the best advantage the powers they already possess.

A correspondent who wrote us a long letter telling what a certain citizen who had voted against Mr. Morley said about him is informed that we do not print anonymous criticisms of anyone.

The Toronto Star says that the Winnipeg man who was alleged to have said that Mr. Borden intended to retire in favor of a western man denies it. The denial was superfluous. No one believed the story.

Mr. J. L. Beckwith has defined his position on the water question over and over again. He supports the Sooke Lake scheme and if elected to the office of mayor he will see that it is carried out with the minimum of delay. It is the duty of the citizens today to ratify the letting of the contract for the new waterworks and in doing so Mr. Beckwith, they can rest assured that they will have a mayor who is prepared

Victoria Theatre

Jan. 11—Robert Hilliard in "A Fool
There Was."

Jan. 12-13—Kinetograph Pictures.

Jan. 20—"The Private Secretary."

Jan. 22-23—Forbes Robertson in "Fam-
ing of the Third Floor Back."

Jan. 25—"Girl of the Golden West."

Jan. 29—"The Barter."

"A Fool There Was"—Robert Hilliard.

at the Victoria Theatre tonight gives

what will positively be his only repre-
sentation in this city of "A Fool There
Was." This curiously fascinating
drama which vitalizes Rudyard Kipling's
wild theme of the fool who loved "a
rag and a bone and a hank of hair," is
a blend of comedy, melodrama and tra-
gedy. It has been witnessed by thou-
sands of players during the past three
years. Mr. Hilliard is making a coast
tour in "A Fool There Was" and
upon its completion next spring he will
give the first New York presentation of
a new American drama. Meantime the
enormous popularity of "A Fool There
Was" and its rare commercial value
make it impossible for him to put it
aside. In a modern, up-to-date story of
real life, such as involves many a man
of rank and reputation, he played the
remorseless ruin wrought by blind in-
fantuation for gazillion, hypnotic women
wholly devoid of conscience. Mr. Hil-
liard's portrayal of the fool is so vivid
and intense that it has played a part
among the most distinguished of Ameri-
can players. Its presentation by meth-
ods make it one of the most striking exhibi-
tions in our national gallery of tragic por-
trature. Mr. Hilliard's company still

Finch's Whitewear Sale

FINCH & FINCH, LADIES' OUTFITTERS, "THE SHRINE OF FASHION."

retains Virginia Pearson who plays the
lithic and insinuating Vampire, together
with a new leading man, Alphonse Ethier.

The Coming of Forbes Robertson—
It is some years since a play of rich
vital interest has been presented to
local playgoers as "The Passing of the
Third Floor Back" is with the great
English actor Forbes Robertson a will-
ing to appear here shortly. The great point
about this play is its simplicity, its
good-natured satire and truth to human
nature. The curtain rises on a scene
of a London drawing room, and a
change, but the beautiful transparen-
cy of "The Passing" as interpreted
by Forbes Robertson of its inmates
from their petty selfishness and decep-

tion to what might rightly be termed
the mood of goodness is carried through-
out without resort to any artificial stage-
craft. The influence of the play is sub-
lime and one cannot but leave the the-
atre a better man or woman after hav-
ing breathed the atmosphere which
Forbes Robertson creates. In these
days when the predominance of one mind
over another plays such an important
part in life, the example of such a play
is quite a remarkable revelation. Forbes
Robertson will be at the Victoria The-
atre Monday and Tuesday, Jan. 22 and
23.

The Girl of the Golden West—A
union of artistic instincts, illustrating
that the higher arts have no nationality
is illustrated in Henry W. Savage's pro-
duction in English of Puccini's master-
piece, the grand opera, "The Girl of the
Golden West," which he will offer at the
Victoria theatre Friday, January 26.
The drama which was its inspiration
was written by a native-born American
and the composer of the music which
will make the work endure long after
the drama would otherwise have been
forgotten is an Italian who cannot speak
the English language.

The Empress Theatre—As funmakers
few better performers have been seen
at the Empress theatre than Bokhoff and
Gordon, who send the good will offhand
this week. They are musical comedy
artists of great ability, and Fred Ach-
med shines as a comedian. He plays a
variety of instruments, and a good bur-

lesque is offered which brings down the
house. There is a laugh every minute
this couple is on the stage. It is a
well-dressed and well-staged offering.
Miss Gordon wearing some strikingly
handsome gowns, Miss Cecile and com-
pany who come from the halls of gay
Paris to join the Sullivan & Considine
players have a novel act. They include
posing, acrobatics, acrobatic dancing and
turning, and not the least interesting
of the feats performed in this offering is
that in which the tumbler balances him-
self on one finger inserted in the neck
of a champagne bottle. Fred von Klen-
and Miss Grace Gibson, two former
musical comedy performers, who come
to the Empress from the Wintergarden
at New York where they had a success-

ful season, include some excellent mus-
ical comedy bits, and good singing and
dancing in their number. Marin and
Lona, head balancers and acrobats,
who were successful in the halls of the
Old Country, do some thrilling feats
in a neat manner and Ted Lenore, a
singing and dancing comedian, offers a
good number, in which he includes some
good and new dance steps and some per-
odies. The Empress offers some
good films, notable among these being
the series of Pathe Freres pictures, taken
in the Philippines portraying the cham-
pions and rope-climbing
Lange and Adams, who were the
old and new champions of the
old and new. The Empress is
what it is.

ORCHESTRA IN ATTENDANCE FROM 6:30 TO 1:30 AND AFTER THE PLAY FROM 10:30 TO 12:30

Vocal Selections by Miss Thurston and Miss Dougherty.

NEWS OF THE CITY

Week's Clearings—For the week ending January 8th the total clearings registered at the Victoria clearing house amounted to \$122,374.

Illustrated Lecture—Mr. W. N. Ritchie will give an illustrated lecture entitled "In the Steps of a Traveller" at the Salvation Army barracks tonight. The proceeds are to be devoted to the boy's band.

Will Address Board—At tomorrow afternoon's quarterly general meeting of the board of trade, H. P. Scullin, manager and general secretary of the Canadian branch of the Industrial Peace Association, will address the board on the aims and objects of that association.

Round Over—In the police court yesterday morning E. M. Perdue was charged with assaulting his wife, with intent to do grievous bodily harm. He was bound over to keep the peace. J. P. Walls appeared for Mrs. Perdue and G. Murphy for defendant.

Postponed in Sympathy—The regular monthly meeting of the Children's Aid society, which was called for 3 o'clock yesterday afternoon, was adjourned until further notice out of respect to the memory of Mrs. Roche Robertson, whose burial took place in the Rose Bay cemetery yesterday afternoon.

Building Permits—Building permits were issued by the building inspector yesterday to A. E. Hayward for a dwelling to be erected on Pembroke street to cost \$1960; to M. McLean, dwelling on Strathcona street, \$1500; to William Moore, alterations to dwelling on Spring street, \$300; to O. B. Styles dwelling on Hulton street, \$1350.

Case Dismissed—In the action of Leach v. Anderson, which was to come before the county court yesterday, no appearance was made for the plaintiff and judgment was accordingly given for the defendant. The action was one wherein the plaintiff was suing the defendant for wages alleged to be due for work done.

Telephone Rates—It was decided at yesterday morning's meeting of the council of the Board of Trade to place on the agenda paper for discussion at the quarterly general meeting to be held tomorrow afternoon the matter of the proposed increase of rates for telephone business premises. The committee of the Real Estate Exchange will be present by invitation and given an opportunity to address the board.

Chinaman's Will—Sometime ago application was made before Mr. Justice Gregory for probate of the will of Nam Sing, a Chinaman, who it was claimed had made a last testamentary document which, however, could not be discovered, the probate being desired for what was understood to be a copy of the same. Mr. Justice Gregory declined to allow the application, but granted leave to renege the same should further evidence upon the matter be forthcoming.

Divorce Decree Granted—In the Supreme court this morning Mr. Justice Gregory granted a decree absolute in the divorce suit of Palmer v. Palmer. The case was before the court about a year ago, and since then the defendant, says his lordship, through the counsel for the petitioner not presenting his case originally with a full realization of his duty in an undefended divorce action.

Tidderington Case—Another adjournment had to be called in the extradition case of Arthur Tidderington, which was called before Judge Lamman in the county court yesterday, but this time the adjournment was not called until after some evidence in the case had been heard. Mr. Bodwell, who is prosecuting on behalf of the Walla Walla people placed several witnesses in the box to prove the contract arrangements under which Tidderington was working with the firm preferring the charge against him. He explained to the court that it was intended to prove to the satisfaction of the court that Tidderington had made sales on behalf of the company and retained the money. The defence is reserved.

Inquiries From Scotland—Several enquiries from Scotland have reached the Vancouver Island Development League including one about the prospects of the fishing industry and navigation openings in British Columbia. The enquirer knows several fishermen anxious to come if there is work for them. Another letter from Oshawa, Ontario, states that there are many intending settlers there for British Columbia, and especially for Vancouver Island. The annual meeting will be held at the board of trade rooms on Friday next beginning at 10 a. m. In the absence of the president of the league, Mr. J. W. Coburn, owing to illness, Mr. J. J. Shalcross, the senior vice-president, will preside.

Must Return to Penitentiary—Just completing a six months' term in the local provincial jail, where he was sentenced from Vancouver Edward Vanderveer must re-commence serving on the balance of a fourteen-year sentence which he was given in 1908. He was sentenced from King county, Washington, to Walla Walla on several charges of burglary, but after serving about a year he escaped from the gang on the rock pile at that institution, and succeeded in getting to this side of the boundary. After his commitment from Vancouver the state authorities learned of his being incarcerated. In the jail here, and immediately he completed his time he was taken in charge by Sheriff Graham, of Walla Walla, in whose company he yesterday left for Seattle en route back to the penitentiary.

Church Social—A very successful social was held in the First Baptist church on Tuesday evening, when the young men of the Young People's society entertained their friends of the church and congregation. The wing of the church was beautifully decorated with flags, etc., and a good programme of musical selections, and games was enjoyed by all. The Y. M. C. A. orchestra was also in attendance and pleased the gathering with many good selections. The programme was as follows: Selection by the Y. M. C. A. orchestra; mandolin solo, Mr. Johnson; vocal duet, Mr. and Mrs. Baker; vocal solo, Miss Griffiths; selection by the Y. M. C. A. orchestra; flute solo, Mr. Bellamy; instrumental duet, Messrs. Johnson and Phillips; solo, Mr. Hughes; selection by Y. M. C. A. orchestra.

Presented Costs Report—At a meeting of the council of the board of trade held yesterday morning the special committee on harbor improvements presented a report of the several interviews which were had with Mr. Louis Coste on the question of improvements at the port of Victoria. Accompanying this was a verbatim report of the discussion, which took place at the conference with the harbor engineer. These will come before the quarterly general meeting of the board to be held tomorrow afternoon.

"Old Boys" Dinner—Preparations for the B. C. Old Country Public School Boys Association's dinner at the Empress on Saturday, are now complete. An executive council meeting was held yesterday when a number of new members were elected, and plans prepared for Saturday's reunion. The "old boys" and their guests will foregather in the rotunda at 7:30 p. m., and speeches will follow the dinner. The official toast list has been reduced to that briefly which is the cost of war, and the sense of conviviality, after which the "old boys" will amuse each other with the British equivalent of "stunts" in song, speech and story. The toast of the evening, of course, will be "Our Public Schools." This will be proposed by the honored president of the society, the Hon. C. E. Pooley, K. C., and responded to by the guest of the evening, the Rev. Dr. Gray, formerly headmaster of Bradfield College.

Presentation to Pastor—Rev. W. C. Drahn, pastor of the Grace Lutheran church, corner of Queen's avenue and Blanchard street, was greatly surprised last evening when at an exceptionally well attended social in the church basement, he was made the recipient of a well filled purse of gold, a token of the esteem of the congregation. The foundations of what will prove to be one of the greatest influences for good in the community, Rev. Mr. Drahn could hardly find words to express his appreciation of the spirit which prompted the gift. He dealt with the work of the past and particularly commented upon the faith of the congregation which had made possible the successful prosecution of his work. After the rendition of an excellent programme by members of the church, an hour was spent discussing plans for future work and entertainment.

Progress in Yale District—Mr. Alexander Lucas, M.P.P., the first and popular member for Yale to whom has been assigned the honor of seconding the speech from the throne, this session had a very satisfactory story to tell the Colonist last night of his progress in his constituency during the past year. The most notable development has been that made in the construction of the Canadian Northern line, on which more than 2,500 men are now employed between Hope and Kamloops. The contract price for this line was eighteen million dollars, and the work is being pushed forward with such zeal that Mr. Lucas says that practically every mile of the 160 miles between Yale and Ashcroft is in course of construction. In many sections gangs are at work every quarter mile, and the entire district is benefitting already from the increased trade due to these railway activities. There were signs of development to be seen everywhere, added Mr. Lucas. Coal mining had been particularly active around Merritt, where the general progress was most marked in Old Yale and Lytton—which has now over 1,500 people. Reports from Siwash creek had created great expectations in that district and further reports were being eagerly awaited of the gold prospecting work, the results of which Mr. Lucas expects to receive shortly. The member for Yale is looking forward to the fray, and may be relied upon to add to the laurels he won last year.

THE WEATHER

Meteorological office, Victoria, B. C., at 3 p. m., January 10, 1912.

SYNOPSIS.
The barometer is comparatively low along the coast and rain has been general from this to California while on the Lower Colorado and some of the extreme cold reported in Northern British Columbia and across the continent to Manitoba.

Less than two years ago I chose a beautiful piece of seventeen acres a mile beyond the Royal Oak Station and a few yards off the East Saanich Road. An automobile road runs right up to the property from which there are magnificent views of Elk Lake, the Sooke Hills, Cordova Bay and Mount Baker—nearly seventy miles away in the State of Washington. I intended to make this my home, but illness compels me to go south and to relieve myself of its upkeep I will sacrifice the place, both in respect to price and terms. The following is a statement of values that is absolutely free from exaggeration:

House	\$4000	Seven rooms—diningroom, drawingroom and hall, the last two with open fireplaces, kitchen with two pantries, three large bedrooms with very big closets, bathroom with hot and cold water and w.c. Water laid on to the house, full basement, cement foundation, furnace, septic tank.
Well	\$ 500	Bored for 167 feet, full all the year round and clear as crystal.
Fencing	\$ 300	Two fences, one round the property and the other enclosing the house, and one acre.
Clearing	\$1500	Ten acres cleared, ready for the plough.
Outhouses	\$ 300	New barn, two-roomed workmen's cabin, two chicken houses with scratching sheds and large runs.
17 Acres	\$6800	First class productive land, no rock, slight slope.
	\$13,400	

My Price \$11,000

Cash \$2500, balance over three years, with interest at 7 per cent.

BOX 523 COLONIST

HARBOUR FRONTAGE

LARGE LOT NEAR LAUREL POINT, just where the activity is. This will make the fortunate investor a bunch of money in a short time. You can buy it now for \$25,000. Will be worth a third more in six months. BEAUTIFUL HOME ON MOSS STREET, one block from May street. High and near the sea. A good buy at \$5,450. Terms.

NEWS OF THE CITY

Old Men's Concert—Under the leadership of Mr. Johnstone, the Y. M. C. A. orchestra gave an evening's entertainment to the inmates of the Old Men's Home last night. A number of musical pieces and instrumental solos, together with several vocal numbers, were submitted and greatly enjoyed by the audience, who evinced a high sense of appreciation, not only of the musical talent of the inmates, but of the musical talent of which it consisted.

Down From Hope—Messrs. D. J. McRae and Luke Gibson, prominent contractors from the township of Hope, arrived in the city yesterday with a view to meeting the government on the opening day of the provincial legislature to press for some improvements in the place named, which, by the way, has recently experienced an accession of popularity through the tremendous amount of railway construction that is proceeding there. Several lines of track being built right through the township, and as construction upon all of them will be in progress during the current year great things are expected.

CAUSED BY ACCIDENT

Death of Mr. R. J. Horton in San Francisco Result of Fall Injuries Incurred by Run-Away Horse

The death of Mr. R. J. Horton, who was highly esteemed by many among the older residents of Victoria, was the result of an accident. About four months ago Mr. and Mrs. Horton, neither of whom was in good health, went to San Francisco. They made their home among old friends in a very quiet neighborhood at the corner of Richmond and Sixth avenue. On the 23rd of Dec. Mr. Horton went out for a walk, and stopped on the sidewalk to look at a picture in a window. A runaway horse, dashing to the pavement, threw the old gentleman down. Though his face was cut and his arm bruised, no serious injury seemed to have been inflicted, and he laughed at the doctor's suggestion that he should go to the hospital. When his daughter, Mrs. B. Harle, arrived from Victoria the next day with her daughter Margaret, no danger was anticipated. Mr. Horton listened eagerly to all the Victoria news, and his daughter prepared to take her parents home in a few days. On the fifth day, very suddenly, the collapse came, and death followed on the 14th of January. On Friday the funeral will take place from the home of Mr. L. H. Harle, corner of Oak Bay avenue and Willoughby street, the services being conducted by the Venerable Archdeacon Scriven.

MANY ATTEND MRS.

ROBERTSON'S BURIAL

Premier and Other Prominent Men Among Pallbearers—Great Wealth of Flowers

There was a large attendance at the funeral of the late Mrs. Rocke Robertson which took place yesterday afternoon from the residence of Mr. Harold Robertson, 510 St. Charles street to St. John's church, where the service was held at 2:30 p. m. Very Rev. the Dean of Columbia officiating, assisted by Rev. Stanley Ard.

The service was fully choral, and including the singing of the Doxology, "Te Deum," "The Lord's Prayer," and "On the Resurrection Morning." The pallbearers were Premier McBride, Hon. Price Ellison, Mr. J. A. Mara, Mr. J. W. Gillespie, Colonel A. W. Jones, Mr. E. Crowe Baker, W. J. Taylor and A. C. Frowell.

The floral display was one of the largest ever seen in this city, and included beautiful tributes from different organizations in which the deceased had been interested. The combined chapters of the Daughters of the Empire sent a large floral pillow in carnations and lilies of the valley with the emblem in the corner in the colors of the society. The Women's Auxiliary to the Jubilee Hospital sent a wreath of white flowers, bearing in the center a red ribbon with the words "In memory of Mrs. Rocke Robertson," while the local council of women, W. A. of Columbian diocese, W. A. of St. John's church and St. John's guild were all represented by crosses of beautiful flowers. Rev. Stanley Ard took the service at the graveside.

SOCIAL AND PERSONAL

Mrs. M. A. Vignor left on Saturday for Seattle en route to Los Angeles, Cal., where she expects to remain for about three months.

Mr. G. L. Watson returned yesterday from Vancouver after visiting his sister, Mrs. R. A. Greesh of the Broughton apartments, Vancouver.

Mrs. Dalby Morkill of Vancouver is spending the week in town.

Among the guests at the Oak Bay hotel during the last three days have been Mr. A. Dutchie of Vancouver, Mr. and Mrs. Milton E. Kahn of Portland, Mr. and Mrs. A. E. Cross of Calgary and their children.

Mrs. E. H. Griffiths, who has been visiting her sister, Mrs. A. E. Bull in Vancouver, left for Seattle yesterday, accompanied by her sister, Miss McKenny from the east, who will visit her for a few months.

Miss Zene Paterson, who has been visiting the past month, has resumed her duties at the St. Joseph's hospital. Mrs. S. J. Davidson, who arrived from 1225 Fairfield road, will not receive today but the second Thursday in February.

The friends of Mr. J. W. Colburn of Nanaimo will hear with relief that the latest accounts report that he is doing well. Mr. Colburn is suffering from an attack of pneumonia.

ALBERNI'S CLAIMS

TO INCORPORATION

Government to Give Decision Today Hearing Representatives of Rival Townships

At a meeting of the provincial executive yesterday, various details of arrangements were made by the government preliminary to the opening of the session of the provincial parliament today.

The premier and his ministers also

attended a hearing to Messrs. A. W. Neil, H. H. Brown and others representative of the old town of Alberni, in opposition to the requests and arguments put forward by the Port Alberni delegation headed by Mr. Richard J. Burd and his associates on Tuesday morning, both deputations being interested in the contradictory and conflicting applications for incorporation as city municipalities by Alberni and Port Alberni respectively.

After the hearing of the old town delegates yesterday, Mr. Waterhouse and one or two others from Port Alberni spoke briefly in refutation of statements advanced and arguments based thereupon.

The government has promised a decision in this vexed matter of the rival towns, and Alberni incorporation today. It is also probable that the decision will be handed down this week in connection with the three-cornered dispute between the B. C. E. company, the city and the District Municipality of North Vancouver over the Rice Lake park lands, originally granted to the tramway company as a consideration to induce construction of the Lynn Valley line, but subsequently passed into the possession of North Vancouver city, which now declines to surrender them.

COMING EVENTS

Ladies Choral Class—The weekly rehearsals of the Ladies' Choral class will be resumed this evening at 1622 Burdette avenue at 8 o'clock.

Anti-Tuberculosis Society—The regular monthly meeting of the Anti-Tuberculosis society will be held on Monday, 15th, at 8 p. m. in the Alexandra club.

Canadian Club Luncheon—The Canadian club will give a complimentary luncheon to the eminent sociologists and philanthropist, Sir John Kirk, founder of the Rugged School Union, tomorrow. The president, Mr. Lindley Cresswell, will take the chair at 1 o'clock, and Sir John will give an address after the luncheon on "Children as a National Asset." The tickets are free, limited to seventy in number.

Y. M. C. A. Classes—The evening classes at the Y. M. C. A. will open on Monday evening next, and already over sixty students have enrolled and five classes have been arranged for in English and arithmetic for men and boys; a class in drawing for artisans; one in bookkeeping and one for foreigners who want to learn English. Classes will be organized at eight o'clock and a time arrangement will be made.

Cymrodorion Society—The Cymrodorion society will hold an important meeting to-night in the Foresters' hall at 5 p. m. Plans in connection with the proposed Choral society will be laid before the members by a representative of the Victoria Choral society, and the question of taking action in connection with the Welsh National Memorial to King Edward VII. of which L. Kenyon is treasurer, are to be discussed. The lady members of the society have undertaken to provide refreshments at the close of the business meeting.

Cap's Big Dance—Invitations for the club dance to be given by the members of the Capital Athletic club on the evening of January 22, in the Alexandra club, have been issued. A limited number of invitations will be issued, so that ample space will be allowed on the stage for the band and ballroom for all attending. The committee in charge is sparing no time in making this event a banner occasion in the history of the club and that it will surpass anything held by an athletic association in Victoria in many years.

The affair is the sound device of the Capitals. The young men on the committee have been successful in securing the services of a ten-piece band, led by Mr. G. Willie, the well known violinist, to supply the evening's music. Dancing will start at 8 o'clock, concluding at 2 o'clock. Dress will be informal and a buffet supper will be served at 11 o'clock p. m.

REALTY TRANSACTION

IN THE APPEAL COURT

Commission Principle Involves Vancouver Exchange in Interesting Case—Evidence Is Proceeding

An interesting case involving the ethics of a real estate transaction was commenced before the court of appeal yesterday and will be continued today when judgment will probably be given. The case is of interest in as much as it represents a concrete instance of a deal handled by the Real Estate Listing Exchange of Vancouver. It concerns the commission principle, and on that point alone it is deserving of attention. It is an appeal from the judgment of a Vancouver justice and the parties to it are Messrs. Austin & Company v. The Real Estate Exchange of Vancouver. The circumstances under which the action arose are as follows:

The plaintiffs were subscribers to the exchange, and received a list containing a piece of property belonging to one Mrs. Mary Casher for sale at \$5,700. The original listing was for \$6,000, but the exchange rendered to the plaintiffs in July a listing reduced from the greater to the lesser sum. In November following, the plaintiffs, not having received any notice of the property having been sold or withdrawn, telephoned to the exchange inquiring whether the property was still open and received an answer that it had not been withdrawn, whereupon they advertised and procured a purchaser who paid a deposit of \$50, which was taken by the plaintiffs' clerk to the exchange and paid over in accordance with the contract.

The trial judge found on evidence that the property had never been listed by Mrs. Casher, and that consequently there was no claim against her for commission. The action for commission was dismissed as against her, and the exchange was found liable for the full amount of the commission.

VANCOUVER'S CHARTER

Mr. T. D'Arcy Tate, chief solicitor of the Grand Trunk Pacific Railway company, has been in the city during the past week, and has held several protracted conferences with Premier McBride and with Attorney-General Bows, in connection with the Prince Rupert incorporation act, which he has prepared and now has ready for submission to the local legislature. Mr. W. A. Macdonald, K. C., is also in the city in connection with the many suggested amendments to the charter of the City of Vancouver, for which he acts as general solicitor. These will be sent for submission to the house early in the session. Mr. Macdonald lately having had the assistance of Mr. Geo. H. Cowan, by whom the amendments providing for the possible substitution of a commission form of civic government were originally drafted.

Mrs. M. at the Blumhardt.

TAXATION REPORT

Bulky Document to be Presented to Premier Today

The report of the Royal Commission on Assessments and Taxation has been completed and it is expected will be presented to the provincial prime minister today. It is understood that this report, with the transcript of the evidence taken during the commission's tour of investigation throughout the province, will be laid before the legislature at an early date and also given to the public at the earliest opportunity.

OBITUARY NOTICES

Messier—At the funeral of the late Mr. George Messier today the service will be conducted by Rev. Baugh Allen and not by Rev. McFarlane, as erroneously stated yesterday.

Williams—Mr. Frederick William Williams, for the past 22 years a resident of Victoria, died yesterday morning at the home of his parents, Mr. and Mrs. J. L. Williams, 311 Market street, of pneumonia contracted last week at Sidney, where he was employed by the Humber Estate, with which he has been employed for the past thirteen years. The late Mr. Williams contracted a cold, which settled upon his lungs. He was brought into the city by Alderman Humber on Tuesday last, but, despite every attention, he succumbed. He was 38 years of age, and married, being survived by his wife, residing at 181 Hillside avenue; his parents, five brothers and one sister, all residents in Victoria. His wide circle of friends will sincerely regret to learn of his death. He was a member of Court Northern Light, A. O. E. He was born at Parnham, Surrey, England. The funeral arrangements have not yet been made.

McGowan—Acting on instructions received from relatives of the deceased in Ireland, the funeral of the late Edward McGowan will take place on Friday. Requiem mass being held at St. Andrew's cathedral at 9 a. m. by Rev. Father Letourneau.

Horton—The funeral of the late Mr. R. J. Horton, formerly for many years connected with the Hudson's Bay Co. of this city, will take place on Friday at 2:30 p. m. from the residence of his son-in-law, Mr. L. H. Harle, 2190 Oak Bay avenue. Very Rev. Archdeacon Scriven officiating. The remains arrived from San Francisco via Seattle on Tuesday, accompanied by the widow of the deceased, and out of respect to his memory the flag at the Hudson's Bay Co. warehouse was flown at half-mast on Wednesday.

Chung Pol Yock—The death occurred on Tuesday at the Chinese hospital of Chung Pol Yock, a native of Canton, China, aged 27 years. The funeral took place yesterday afternoon.

Price—The funeral of the late W. J. Price took place on Wednesday at 10:30 a. m. from the B. C. funeral parlors, Rev. F. H. Patt officiating. The body was brought over from Vancouver on Monday night by Mrs. N. B. Richards, of Edison, Wash., sister of the deceased.

Gray—The funeral of the late Dennis Gray took place on Wednesday at 8:30 a. m. from the family residence, 529 Cook street, to the Roman Catholic cathedral, where Requiem mass was held at 9 o'clock by Rev. Father McFarlane. There was a large attendance of friends of the deceased, and many floral tributes. The service at the graveside was taken by Father Letourneau. The pallbearers were: Messrs. John Hart, Frank Sehl, U. D. O'Connell, A. B. Stewart, L. Sweeney and J. Daxne.

Hing-Fook—The death occurred at the Jubilee hospital on Wednesday of Hing Fook, aged 55 years and a native of Canton, China. The deceased resided at 567 Fisgard street, and was a laborer by occupation. The funeral is taking place this morning at 10:30 a. m. at St. John's church. The interment of the remains of the deceased, the infant son of Mr. and Mrs. Samuel L. Smith, 61 Chamberlin street, died yesterday. The funeral will take place this afternoon.

Births, Marriages, Deaths

BORN

HELMING—To the wife of H. F. Helmsing, Clowardville, Ia., on Wednesday, January 10, a son.

DIED

COULLARD—Miss Louise M. Coullard died 10:10 p. m. Tuesday, January 9, 1912, at her home, 1141 V. G. Funeral Saturday, January 13, 1912.

HORTON—At San Francisco, Cal., on the 4th Jan. 1912, accidentally Robert John Horton, aged 78 years; born London, England.

The funeral will take place on Friday, Jan. 12, at 2:30 p. m. from the residence of his son-in-law, L. H. Harle, 2190 Oak Bay avenue. Service will be conducted by Rev. Father Letourneau.

GOOD lost a large number of valuable papers, including a large quantity of correspondence, on the 12th inst. at 11:00 a. m. at 1155, 12601 frontage, one week only at \$150. Box 652, Colonist.

MESHER—At 540 Poul Bay rd., Victoria, B. C., George Messier, of this city; a native of Kent, England; aged 81 years. The funeral will take place on Thursday, January 11, from the B. C. Funeral Parlor, 1111 Douglas street, at 2:15 p. m., and from St. John's church, Douglas st., 15 minutes later.

Friends will please accept this intimation. **AXMONSON**—January 9, at the Royal Jubilee hospital, Victoria, B. C., Andrew Alfred Axmonson, native of London, Eng., aged 57 years. English, Australian and New York papers please note.

Funeral will take place 2 p. m., Thursday.

Funeral Notice

Members of Victoria Columbia Lodge No. 1, A. F. & A. M., B. C. R., are requested to meet at the Masonic Temple, Fisgard street, on Thursday, the 11th, 9th Jan. 1912, at 1:45 p. m. sharp, for the purpose of attending the funeral of our late Bro. George Messier, Sec. Members of local lodges and sojourning brethren in good standing are invited to attend.

By Order of W. M. A. ST. GEO. FLINT.

ADVERTISE IN THE DAILY COLONIST

MATTERS OF MOMENT IN WOMEN'S REALM

The Woman's Vote

There are, in Victoria a considerable number of women who hold the civic franchise. This is one of the signs of prosperity for they are all property owners. The greater number of these will exercise their privilege. It is not to be supposed that their votes as a whole will be cast for one set of candidates rather than the other. There is no question before the electors that concerns women rather than men. It is much to be doubted whether in this world of ours, there are such questions. Nevertheless many decisions made on Thursday will affect every home in Victoria for a long time to come. Of the characters are the electors on the waterworks, the sewerage, the High school and the library bylaws. It is a very thoughtful woman who does not see that in many ways the policy of the city council, directly or indirectly causes the saving of the waste of the city. Before the electors of every home. To examine for herself the various bylaws, to weigh well the merits of the candidates for civic honors and for the schoolboard is each voter's duty. It should not be truthfully said of the women of Victoria that their policy is a blind and unreasoning one, and that unscrupulous leaders can exploit them for their own purposes. There is a strong movement on the part of women here as in other parts of Canada to obtain an extension of the franchise. Let the women of Victoria prove their fitness for greater opportunities by using wisely the restricted privileges they now enjoy.

Useful Bulletin

The provincial government has just issued two bulletins which every man in British Columbia should read. They are prepared by Miss Alice Ravenhill, an English lady whose residence in British Columbia will be of great advantage to the women of the province if the advice she gives them is followed by all, and if they make their own knowledge as clearly sets forth. The pamphlets, which are well illustrated and beautifully printed, are intended for distribution among the women's institutes of the province. It would, however, be a pity if housewives in the city cannot have in some way, access to these bulletins. There will be seven of them and they all treat of matters which interest all women, wherever they may live or whatever may be their station in life. The first of these is entitled "The Place and Purpose of Family Life." The viewpoint of the writer, who in succeeding essays is to tell of the preparation and preservation of food, of the use of labor-saving devices, of the art of right living and the care of children, may be seen from the opening paragraphs: "The closing words of Earl Grey's farewell address to the country, for whose advancement he has labored with whole-hearted devotion, form a fitting introduction to this subject. 'I beseech you,' he said, 'to educate and bring up your children in the faith that Canada is destined to fill a proud and splendid mission in the world.'"

"But what is the connection, you will ask, between the title at the head of this page—'The Place and Purpose of Family Life'—and the mission which Earl Grey foretells it is the duty of this vast and beautiful country to fulfill?"

"The reply to your question shall be given by no less a person than the King. It is not many months ago since he told his people that the stability and progress of our Empire depended entirely upon the character of the homes in which its children are reared. Only, said he, if home life be pure and healthful can prosperity be secured and our great and world-wide responsibilities be fulfilled."

"Upon the parents of today, upon their methods of bringing up their families, hinges the future of Canada. Now, one purpose of family life is to furnish the country with a high-minded, self-supporting, healthy population."

"The history of the world bears clear witness to the fact that real progress and enduring prosperity exist just in proportion as noble ideals and high standards of conduct were fostered in home life. It is righteousness that exalteth a nation."

A carefully written and very interesting account of the rise of family life and of the growth of human homes follows. The needs which a modern home must fulfill are set forth briefly but adequately, and in speaking of the "Art of Modern Homemaking" Miss Ravenhill says: "This may be described as that of beautifying human lives; of placing those over whom she exercises control under conditions which will permit all the possibilities innate in each of them to become actualities. How is this art to be achieved? By similar means to those adopted in the acquirement of skill in any other occupation—by training and practice. The world has taken a long time to

reach to the state that the care of human lives in the home calls for preparation, and that the character of that care must vary as conditions change within and without the family circle. With all respect for the housewifery practiced by our great-grandmothers, much of it calls for revision by the light of modern knowledge, in order that it may meet modern requirements and utilize modern conveniences.

The right management of a house has been assumed to come to all married women by instinct; and though infinitely more knowledge is necessary for this purpose than for the successful care of poultry or cattle, far more study and thought is habitually given to the feeding of stock than to the feeding of young children, at what cost of health, happiness and human lives statistics bear record."

The writer emphasizes the necessity for the education of girls and young women in housewifery and shows that the Women's Institutes will do for the women of Canada what it is possible to do, to make up to them for the lack of such education in girlhood. These institutes "are organized to carry useful knowledge to the most remote homes, to encourage the adoption of home methods by the stimulus of mutual co-operation, and to afford opportunity for the interchange of experience on all matters pertaining to home and family life."

Training of Nursemaids

Many mothers are willing to commit the care of their little ones to inexperienced girls. It is believed that though teachers and governesses must be well educated and carefully disciplined before they are fitted to take charge of older children, little enquiry need be made into the fitness of a nursemaid for her task. When one is found unfaithful or incompetent she is dismissed and another takes her place. And yet no one except the child's own parents has so great an influence in molding a child's character as the nursemaid who is placed in charge of the baby. Her speech, her manner, her very nature make an impression on the little one that may never be removed. The best a mother can do in most places, who must delegate the charge of her baby to mother for part of the day is to choose some healthy wholesome girl who really is willing to do her best. There is, however, a sign that better times are coming. In New York there is a babies' hospital, which is also a training school for nursemaids. No one is allowed to begin training until she is 20 years of age. Then she is taught how to do in the very best way all the habits, either simple or complex, need have done for them. When the time of probation is over the trained nurse goes out under the auspices of the training school. It is not hard to see that this may be the beginning of better things for the babies of the rich, who are so often more to be pitied than those of the poor. But the reform will go farther than this. When these nursemaids marry, their own babies will not only be loved but wisely tended. It may be, too, that when nursing babies comes to be looked upon as a business and not a chance occupation as many girls will seek to enter it as now go into the hospitals or attend business colleges.

Vocational Beaureaux

Nothing is more certain than that there is at present great waste of effort resulting from men and women being unsuited for the work they are doing in the world. Boys and girls enter upon their life's work with little consideration. A friend goes into a workshop or an office and the companion follows regardless of differences in tastes, aptitudes and capacity. An advertisement states that a situation is open, and application is made because it is necessary that some work should be found. The wonder is not that there are so many failures, but that there are so few.

In some cities of the United States and in Europe the teachers of the high schools and other educational authorities have undertaken to help the young people choose their calling, to fit them for their work and to help them find success. It is said that the results have been excellent. The bureau make it their business to learn the state of the labor market, and to find out where the most useful work can be done as well as the highest remuneration received. The plan is that might be adopted in any city with excellent results. Co-operation between schools and employers of labor ought to have a good effect. While the school's first object is to prepare young people for life, it is just as possible, as far as possible, the best that is in them, this is not inconsistent with the making of efficient workmen and workwomen. It is to be feared there are many, even among our older pupils, who look upon the passing of examinations as the chief end of school life. Far better they should work conscientiously towards this end than that they should waste their time. But even ambitious youths and maidens sometimes forget that character is far more important than success. In such a case people who fall when placed in positions of trust and responsibility. If both teachers and scholars felt more definitely that school is a preparation for the world's work such failures would be less common. This would be one and not the least of the uses of a vocational bureau.

PREDICTS WAR

Professor Brander Mathews Thinks States Will Be Involved About Year 1920

NEW YORK, Jan. 10.—In spite of the movement for universal peace, the United States probably will find herself engaged in another war about 1920, according to Professor Brander Mathews, head of the department of dramatic literature at Columbia University. Professor Mathews is an ardent supporter of the arbitration movement, but he says the law of succession of events will count more than all arbitration movements put together.

Prof. Mathews believes that if such a war occurs the United States is apt to be in the wrong. "With the rapid increase of wealth and population," he says, "our nation is likely to take the part of the bully."

OF INTEREST TO WOMEN

Woman and Her Work

The best way to spend a happy day in snowy January is to go and see one's friends, sample the new frocks and pick up all the information that is available. A stroke of luck sometimes comes in one's way and mine took the form of an invitation to inspect a trousseau that has recently been made for one of the smartest brides of the winter season. And the gowns, hats and furs on view certainly gave some new ideas. Cream frocks are in high favor and my bride had these in her trousseau. A cream gown with cream silk, beading, a cream cloth with lines of dull gold and a cream velvet with touches of old lace—this last a hopeless extravagance. Each of these gowns had a skirt fitted like a glove on the hips, but near the feet there was a certain amplitude.

Grey is another color of the moment, and among the simpler frocks was a grey tweed made with a short skirt and a short coat. Which latter would be worn over a pale grey tailor-made blouse embroidered in Oriental colors. This would be worn as an occasional traveling suit. For the afternoon most of the smarter gowns were in velvet, tulle, liberty silk, or fine cashmere. The bride had two grey velvets, but one was in coat and skirt style, and the other made in a sort of princess fashion. The coat and skirt in grey ribbed velvet had orange colored embroideries and the long coat was edged with skunk fur trim ming a skunk fur muff of huge size accompanied this costume. The other grey velvet gown had no touch of bright color but was trimmed with grey possum, which at the moment, like skunk, is a fashionable fur, and and-olive velvet appeared as a material picture dress, with long sleeves and the rather low cut neck trimmed with a deep lace collar. This latter dress had a short waist and a deep bell of soft olive satin, fastened in the front by a big antique gold clasp set with yellow topazes. Then a red silk cashmere frock seemed to me perfectly charming. This was made in much the same artistic style and trimmed with touches of dark fur and small satin buttons.

The evening gowns were most beautiful. Several of these were in black, black and white, and in soft neutral shades of coloring. A black velvet dinner gown was made with perfect simplicity. It had a long plain skirt with a short-waisted bodice and black chamois lace over folds of white chiffon, and a long pointed tunic in the same black lace, which had as a border some fine jet beading. A grey chiffon frock looked as though it had been powdered over with myriads of steel sequins, and showed a daring touch of orange on the bodice and waist; belt, and a parma violet chiffon had a skirt and a bodice weathered with wisteria. My friend went in for soft, light materials, but there was a splendid dinner gown in mauve and gold brocade with a narrow panel of gold lace hanging from her shoulders. The lines of this dress were straight and narrow and it was cut and fitted to perfection. A trousseau such as this makes a liberal education; not many of us could afford such an outfit, but it seemed to me to teach a lesson in the need of accessories. Each day gown had its own muff and sometimes its own hand-bag and en-tout cas. And the evening frocks were supplied with fans and fancy bags and sometimes even a cloak to correspond.

Y. Yoshio, an Ocean Falls sawmill hand, is under arrest at Prince Rupert charged with the shooting of a competitor, who was killed instantly. The accused maintains that the shooting was accidental.

A packing school has been established at Nelson.

Beauty

is more than skin-deep—and cosmetics and other artificial applications to the skin will not restore personal comeliness.

It is a recognized fact that the pale-faced, anemic girls in our large cities owe their ashen paleness to poor blood.

WILSON'S INVALIDS' PORT

(A la Quina du Pérou)

eradicates all poisonous accumulations, purifies and nourishes the blood, restoring healthy action to the skin by sending a supply of rich red blood to the cheeks, thus giving them the flush of health. By its action on the system, it causes the pores to open, the impurities to pass off, and the skin is made soft, smooth and velvety. Replace that sickly paleness by the rosy hues of health—take Wilson's Invalids' Port.

Dr. J. M. BEAUSOLEIL, President of the Canadian Medical Association, says: "I know and recommend your excellent tonic 'Wilson's Invalids' Port.' I prescribe it to young persons and to debilitated women, and the result is most satisfactory. I congratulate you for having filled with the greatest of care a time-honored prescription, which is approved by the Medical Profession. I heartily wish you all the success you deserve. Yours truly, J. M. BEAUSOLEIL."

CORBETT THINKS PALZER A COMER

Blonde Jowan's Strength, Endurance and Superior Hitting Powers Was What Beat the Californian

(By James J. Corbett)

NEW YORK, Jan. 11.—(Special to the Colonist)—This past week's "White" contests upset all the "dope" upon which a majority of boxing experts base their selections. On form, or rather past performances, Al Palzer and Carl Morris figured to draw the loser's ends.

In winning from Al Kaufman with a knockout in five rounds Palzer showed wonderful improvement and bids fair to become an important factor in heavyweight pugilism. The battle was one of the most stubbornly contested in the history of the sport, and it was not until the eleventh round that the men fought at top speed. Strength, endurance and superior hitting powers won for the blonde brawler.

Young Palzer is the most promising white heavyweight developed in years. A magnificent specimen of manhood, big boned, wide shouldered and the owner of unlimited courage, another year's experience should fit him for the supreme test—a match for the championship.

Palzer's gameness was tested several times in the Kaufman engagement and he was not found wanting in that most essential quality. He is a natural fighting machine and his great strength and aggressiveness proved too much for Kaufman. By this victory Palzer made a long stride towards the goal of all heavyweights—the championship of the world.

Carl Morris' triumph over Tom Kennedy was not so clean cut or impressive as that scored by Palzer. While Carl displayed a higher grade of efficiency than formerly, as an exponent of the manly art he has very much to learn before his claims to greatness can be seriously considered.

Kennedy's exhibition was in startling contrast to his hard fought contest with Al Palzer. His much vaunted cleverness was conspicuous by its absence, while his boasted speed and foot work were never in evidence. Also his "if-and-when" system was missing. Morris, big and clumsy, had little difficulty in landing on him at will. Kennedy's showing was a keen disappointment to his many admirers and admirers among whom I number myself. (Signed)

JAMES J. CORBETT.

AT HALF TIME

The Philadelphia Cricket team, which made a visit to this city last summer, is planning a trip to England. After touring the Bermudas the team will go to the British Isles in July and there remain six or seven weeks.

A meeting of the North Pacific Fair Association, held at the fair grounds, was held by the fair associations on the coast and from British Columbia, will be held in Frisco January 18.

Billy Allen is not meeting with any success in the ring lately, especially not in the short contests. Joe Mandot and Pal Moore have outpointed the holder of the Panaman belt in contests. Billy Allen's defeat after the fight with Barker, that the Victoria boy will not surprise him when he wins the lightweight title of the world. He thinks there is only one Bayley now, after having fought with him.

The Oak Bay Rugby club selected Messrs. Frank Nason, Frank Nason and B. McInnes as a committee to select the team to meet the law students on Saturday. A captain for the team will be chosen on the field Saturday.

The three teams of the Pacific Coast Hockey League—New Westminster, Victoria and Vancouver—have each won and lost a game. The standing, therefore, looks like this:

W. L. F. A. P. C. H. L. Victoria..... 1 11 12 500 Vancouver..... 1 11 11 500 New Westminster..... 1 11 11 500 Victoria's chance to get a road comes on Friday night. Vancouver's chance also arrives on the same evening. Queer, isn't it? It's going to be one way or the other, so there is nothing else to do but to go out and see it.

The Capital Athletic club's energetic dance committee has issued the invitations for their dance at the Alexandra club on the 26th instant. "Commodore" Ray Bray is a busy man as he is arranging matters generally, while Leader Will is awaiting for some new Broadway hits to include in his musical programme.

The Wards will go through a workout at the Arena tonight. All members requested to be there at 7 o'clock.

Manager Waitlet didn't know a thing yesterday about the managerial subject. Better luck expected today.

RUGBY SCHEDULE CHANGED

Oak Bay to Meet New Students Saturday—James Says Meet Surveys

The schedule of the Victoria rugby league has been rearranged and two games will be played this coming Saturday. Oak Bay's new team will be pitted against the stellar combination of the city in the Law Students team, while the James Bay team will clash with the Surveys, who by the way are fully organized now and have a stronger team than ever. The first match will take place at Oak Bay sharply at 2

OWLS TAKE LEAD IN HOUSE LEAGUE

Eagles Lose Their Place to the Night Birds—Play Weakened Team—League Standing Shows Close Race at Alleys

After having made a grand race out in front of the home team, the Eagles lost three straight games last night and dropped into third place in the league standing. The outcome which delighted the leaders was the Owl team, who although not in their usual form had no difficulty in winning through the regular men.

The match last night was the third played since the New Year holidays and the scores indicate that too much turkey has been taken. In fact the players are not taking the interest now that they did before, which is hardly surprising when they signed with their respective teams to carry the season through till the end, surely the handsome set of medals is enough incentive for the trundlers to turn out and play and it is hoped that the standard of the game will be improved.

Since the howl of the locals decided victory over the Mainlanders reached here early yesterday morning, there has been a rush for seats for Friday's game, and judging from the rapidly with which the seats are being sold, there will be a mighty and strenuous throng of enthusiasts witness the game tomorrow night. The telephone at the Coliseum and the Arena were kept busy on Tuesday night by anxious enquirers wishing to learn the outcome of the game in Vancouver, and when the score was announced there was rejoicing in the home camp. There were several pessimists who, after witnessing the initial game in this city a week ago, doubted very much whether the Capitals, as the locals have been named, had even a chance with Vancouver. There should be no doubt left in the minds of anyone now as to the playing abilities of the Victoria team and their chances for the championship of the Coast League look very bright. True, Westminster defeated the locals on their own ice, but they only too well realize that they will have to travel a whole lot faster in future if they expect to make a reputation of the first game. The fact that it was the first game, and that the home team had just one week less practice than either of the Mainland septettes, had somewhat to do with their losing the game, but they more than proved, on Tuesday night at Vancouver that they are capable of producing a brand of hockey which will make any team in the East or West, go more than ordinarily to better.

The three teams in the Coast league now stand on an even basis, each team having played two games, and lost one and won one, and there is every reason to believe that a fast and exciting game of hockey, and one well worth seeing will be played at the Arena rink tomorrow night.

BOSTON WILL COME IN ON N. H. A. SCHEDULE

It is Expected That Eight Games at Least Will Be Played by Canadians at Boston Town

BOSTON, Jan. 10.—It would appear that Canadian professional hockey will be played here on an extensive scale this winter. It is probable that eight games of the big national hockey association of Canada will be contested at the Boston arena. This is likely because of an odd situation that has arisen in Canada.

In the national league this year are the Toronto and Tecumseh teams of Canada, the Wanderers and Les Canadiens of Montreal and Ottawa and Quebec. The first two were to play the home games at a new rink in Toronto, but that structure cannot be finished in time. So, with the hockey season upon them, the Toronto sevens have no home rink of seating capacity to support a professional organization in which to play their games.

When this state of affairs became known to the other members of the league there was consternation. D'Arcy McGee, owner of the Ottawa team, immediately requested that a meeting of the association be called and that some assurance be given by the Toronto teams that they would see their schedules through. Certain officers of the league were for discarding Toronto and running a four-team circuit.

Worried Over O'Toole

PITTSBURGH, Jan. 8.—Barney Dreyfuss is very much worried over the condition of Marty O'Toole, the famous \$22,500 pitcher who joined the Pirates the latter part of last season. After three games O'Toole's arm went bad and was unmercifully trimmed by the Giants. After that he did no work for the rest of the season. O'Toole is now in Brockton, Mass., having his arm treated by Dr. Henry Daniels, a specialist. Dr. Daniels has treated a score of ball players and he says that O'Toole is suffering from contracted muscles of the shoulder. Two years ago O'Toole was stricken with rheumatism but kept on pitching while under the treatment. This caused the muscles to become more strained and his arm is in a bad way. Dr. Daniels is of the opinion that these muscles will never reach their normal state, but he says this ought not to prevent him from pitching good ball next season.

Standing of Teams.	Won.	Lost.	Pct.
Owls.....	20	13	.606
Hawks.....	18	16	.529
Eagles.....	17	16	.516
Pirates.....	17	17	.500
Gulls.....	11	18	.382
Crows.....	12	21	.363

After having made a grand race out in front of the home team, the Eagles lost three straight games last night and dropped into third place in the league standing. The outcome which delighted the leaders was the Owl team, who although not in their usual form had no difficulty in winning through the regular men.

The match last night was the third played since the New Year holidays and the scores indicate that too much turkey has been taken. In fact the players are not taking the interest now that they did before, which is hardly surprising when they signed with their respective teams to carry the season through till the end, surely the handsome set of medals is enough incentive for the trundlers to turn out and play and it is hoped that the standard of the game will be improved.

JAPANESE OLYMPIAD TEAM

Looks as Though Hons of Mikado Have Some Great Material Even if Timekeepers Were Wrong

NEW YORK, Jan. 10.—Granting that the Japanese timekeeper and trainers are giving out reliable information the Olympic team from the land of the Mikado is liable to give trouble to the best of the athletes competing at Stockholm in the next olympiad. Advice received here states that in a tryout at the Japanese national school, the men can keep in shape they will be formidable contenders.

One of the greatest surprises was the lowering of the Olympic record for the Marathon race, Shige Kanakuri of the Tokyo higher normal school, setting the mark at 2:32. The record was also broken by two others—Sasaki, of the Hokaido institute, and Ide, of the Kelo university, who finished second and third.

NANAIMO TEAM HAS NEW CENTRE FORWARD

He Will Play against the Victoria Eleven at Coal City on Sunday—Local Team Chosen Tonight

NANAIMO, B. C., Jan. 10.—On Sunday Nanaimo will meet the Victoria professionals in an Island League soccer fixture. The City's will field the strongest team they have had out this season. Willett, a new arrival in the city, will be seen at the centre forward and according to his friends here who have seen him play, he will make good with the team which will line up, as follows: Goal, Walker, backs, Kileen, Maxwell, Harves-Dawson, Mitchell, D. Plockhart, forwards, Wm. Young, English, Willett, Langford, Lightfoot, reserves, Bowen, Drake, Bedford. Referee, J. Ovington.

The local team to make the trip will be chosen by the selection committee this evening at a club meeting.

HOCKEY SURPRISES ON EASTERN RINKS

MONTREAL, Jan. 10.—There were surprises galore in the N.H.A. hockey tonight when the Wanderers lost to the Canadiens at the Arena by 6-1 and Ottawa lost to Quebec 5-4.

A week ago the Wanderers whitewashed the fast Canadian team. Tonight the situation was almost completely reversed, for it was almost full time when the Canadiens were five up before the Wanderers scored at all. The presence of "Pud" Glass on the Canadian team was mainly responsible for the result. "Pud" was playing his first game for the Canadiens, and although far from being in shape, he proved to be the hardest nut the Wanderers have yet had to crack.

Coming on the top of three straight wins the showing made by the Wanderers was most disappointing to the spectators. Russell and Odie Cleghorn were away off their game, while Broughton in goal must have lost his horseshoe. Ross and Roberts alone did themselves anything like justice. Pitre and Payan played steady hockey for the Canadiens, the first named being responsible for four of the six goals scored by the Frenchmen. Odie Cleghorn scored the Wanderers' only tally.

The teams were: Wanderers—Broughton, Roberts, Ross, Odie Cleghorn, B. Cleghorn, Russell, Canadiens—Yesta, Dubois, Laviolette, Payan, Pitre, Glass.

Referee, Tom Melville; judge of play, Russell Bowie.

GOLF TOURNAMENT

The annual New Year golf tournament of the Pacific coast, in which there were 87 entries, took place last week at the Hotel Del Monte, in California. Conspicuous among the contestants were C. E. Maud, the veteran golfer, and C. E. Durham, of Stanford. The latter gentleman is a clever player, but stood no chance against Maud, the winner of the Pacific coast open championship, the state championship and the Del Monte cup. R. P. Fredericks, as usual, did some very fine playing.

Among the women contestants were Miss Edith Chisholm, Miss Jeanie Crocker, Mrs. H. R. Warner, Miss Alice Warner, Miss Pillans, Mrs. Jas. B. Smith, Mrs. C. E. Maud, Mrs. Walter Martin, and other well-known lady golfers.

The affair brought together a large number of the devotees of the game, and was, in every way, a great success.

The second annual mid-winter tournament takes place March 2 to 9, inclusive, at the Del Monte links.

Ticket 23 Wins Mare

At the drawing last Monday evening for a mare being raffied by Mr. T. Potter the winning number was 23, the holder of which may apply to Mr. Potter for the animal.

Trainer vs. Trainer

KANSAS CITY, Mo., Jan. 8.—Jim Asbell, Frank Gotsch's trainer, and Adolph Ernst, who was one of George Hackenschmidt's trainers when the Russian was getting in shape for his last match with Gotsch, will meet in a finish catch-as-catch-can match here tonight. The wrestlers are ranked among the best in the light heavyweight line. Ernst, an Ohio man, has defeated "Crusher" Burns and Walter Willoughby. Asbell is said to have been with the champion long enough to have mastered the toe hold and other winning tricks.

A foul ball knocked into the west side grandstand at Chicago during the game between the Cubs and Cincinnati Reds last September 11, 1911, is the basis for a suit for damages filed here against the National League club. Damages of \$10,000 are asked for Miss Ruby Florentine, who, according to counsel, was hit on the head by the ball and severely injured.

Marty O'Toole, Pittsburgh's \$22,500 pitcher, says his arm is all right, and that next season he will come back and start on a successful big league career. He has written a letter to a friend here in which he says: "The statements you have been reading in regard to my arm being over or in bad condition are much exaggerated, as it feels as free and strong as ever. So far as I know, it is all right again, and I am looking forward to a more successful season next year. I find it rather hard to predict how many games I will win the coming season, and will not try to state, but I expect to finish among the leading pitchers of the league."

The passing through Paris of the American athletes on their way to the Stockholm Olympic games next summer will be made the occasion of great sporting festivities. If plans outlined in a proposal to the American Olympic committee are carried out, many notable and wealthy noblemen will place the magnificent grounds of his chateau at Rheims at the disposal of a French committee, with the view of promoting an international athletic meeting, where the American champions will be invited to participate.

J. B. Rice of Kamloops has been sentenced to six months' imprisonment for threatening to kill his wife. It is stated that the C. P. R. will this year erect a new steel bridge, 250 feet long, on mammoth concrete piers over the north fork of the Kettle river.

An English syndicate has asked the City of Nanaimo for an option on a franchise for tramway service for that city and Ladysmith.

16 Ounces of Unequaled Cough Syrup for 50c

The Quickest, Surest Cough Remedy You Ever Used, or Money Refunded. Stops Even Whooping Cough Quickly.

You may not need the 12 which a 50-cent bottle of Pinex saves you, but you do need the wonderful effectiveness of this famous cough remedy. It will usually stop the most obstinate deep-seated cough inside of 24 hours, and has no equal for whooping cough.

A 50-cent bottle of Pinex, mixed with home-made sugar syrup, gives you 16 ounces—a family supply of the most pleasant and effective cough remedy you ever used. Easily prepared in five minutes—directions in package.

The way this takes hold of a cough and gives instant relief will make you regret that you never tried it before. Stimulates the appetite, is slightly laxative and tastes good—children take it willingly. It has a wonderful record in cases of incipient lung trouble and is splendid for croup, asthma, bronchitis, throat trouble, etc.

Pinex is a special and highly concentrated compound of Norway White Pine extract, rich in gualacal and other natural healing pine elements. Simply mix with sugar syrup or strained honey, in a 16-ounce bottle, and it is ready for use.

Used in more homes in the U.S. and Canada than any other cough remedy. Pinex has often been imitated, but never successfully, for nothing else will produce the same results. The genuine is guaranteed to give absolute satisfaction or money refunded. Certificate of guarantee is wrapped in each package.

Your druggist has Pinex or will gladly get it for you. If not, send to The Pinex Co., Toronto, Ont.

HOTEL STEWART

A British Columbia town that is not actively agitating for the establishment of a land registry office, within its boundaries is a rare sight at the present time. The latest applicants for registration facilities are Fort George and Kelowna.

A ratepayers' association has been organized in Coquitlam.

The Port Alberni Conservative Association has named its officers as follows: Honorary president, Hon. Richard McBride; patron, Mr. H. A. Chapman; president, Mr. A. C. Macdonald; vice-president, J. J. McMillan; and secretary, treasurer, J. B. Wood.

WAS WELL KNOWN AS MINING MAN

Mr. John B. Hobson Organizer of Consolidated Hydraulic Mining Company in Cariboo Died Yesterday Morning

One of the best known mining men in this province passed away early yesterday morning at his residence, 1300 Rockland avenue, in the person of Mr. John B. Hobson, aged 67 years. A native of Dublin, Ireland, the deceased left home at the early age of seven years, coming first to New York. He afterwards went to California, where he passed nearly 40 years of his life, operating in the mining fields around San Francisco.

Later on he went up to the Cariboo country, where he organized the Consolidated Hydraulic Mining Co. at Bulkley, Quenell Forks, of which he was the manager. It was this step of Mr. Hobson's that first drew the interest of the Guggenheims to that part of the province, and as a result they prospect in the claims owned by the company, over which they secured control. Sir William Van Horne, the present chairman of the board of directors of the C. P. R., was also interested in the Cariboo at that time. Later on Mr. Hobson developed some leads he held in that district, and in the year 1910 brought in water for the purpose of hydraulicizing his new gravel interests, operating there until a year ago, when failing health necessitated his retirement.

He took an active share in the formation of the Provincial Mining association in 1902, the first convention of which was held a year later. He remained president of the association until three years later, when it went out of existence. He also took part in the agitation for crown grants to placer mining lands. He was a member of the Canadian Mining Institute and of the American Institute of Mining Engineers, and also belonged to the Masonic Order, the Nevada Commandery of the Knights Templars and the Mystic Shrine.

Prior to his death the late Mr. Hobson had been in poor health for some

time, and recently returned from a trip to California, from which, however, he derived no benefit.

The deceased was twice married, his second marriage having taken place in California. He is survived by his wife, three sons, Messrs. Robert, Frederick and Richmond Hobson, and a brother, residing in San Francisco. No funeral arrangements will be made until word has been received from the latter.

The news of Mr. Hobson's demise has been received with sincere regret in this city, for he had a large circle of friends here, his many estimable qualities earning him the esteem and respect of all with whom he came in contact.

LEGAL INTELLIGENCE

Court of Appeal

McPherson v. Vancouver: This is an appeal arising out of an accident caused by an area grating in a sidewalk on Granville street, Vancouver. Originally, when the sidewalk was of planks, the plaintiff's predecessor constructed an area grating, also of wood. When the granite sidewalk was put down by the city, this area grating was replaced, but without the owner of the property being consulted or having anything to do with the matter. It is contended that the city is guilty of negligence, and that the accident was due to a structural defect in the work done by the corporation. The latter, however, deny liability, which they allege should attach to the owner of the property. Argument is proceeding.

W. A. Macdonald, K.C., for the city; J. A. Russell, for plaintiff; and Davis & J. C. for the owner (third party).

Rex v. Mah Hing: This is an appeal by way of reserved case from Murphy, J., who, on a conviction by a jury, sentenced the accused at the Vancouver assizes on a prosecution charge. The conviction was sustained. Macdonald, C. J., dissenting.

J. A. Russell for accused; W. A. Macdonald, K.C., for the crown.

(Before Gregory, J.)

In re Nam Sing, deceased: This was an application "in probate" to prove a will which had been lost. Some affidavits were produced to show that the will had actually been executed and had been sent to Kamboos for registration, but the evidence being considered insufficient, Gregory, J., dismissed the application, with leave, however, to renew it at any future time if better or stronger evidence be forthcoming.

A. D. Crease for the application.

Bowman v. Dufour: Action for damages.

ages in respect of an engine purchased from defendant. Plaintiff, having bought the engine, undertook to install it himself, and owing to insufficient bolting down and other defects in the setting up, it did not work satisfactorily. Plaintiff alleged that the engine was a second hand one instead of a new, but the trial judge found otherwise on the evidence and gave judgment for defendant accordingly.

L. G. McPhillips, K.C., for plaintiff; Ritchie, K.C., for defendant.

Palmer v. Palmer—Divorce decrees granted.

HAS NO POWER

Board of Trade Informed That Dominion Government Does Not Fix Prices for Lighting

The appended letter from Mr. Richard Jones, collector of inland revenue, was received at yesterday morning's meeting of the council of the Board of Trade and referred to the committee of the board which has been dealing with the matter.

"In reply to your communication of the 15th inst., I would inform you that the Dominion government has nothing to do with the fixing of prices for gas and electric light. The board may rest assured that the meters by which the gas and electric light is measured are correct, and each consumer is receiving the amount of gas or current which is charged for. This is the most important part of the inspection work.

"In regard to the candle power of gas, the same is regularly tested and a certificate of test is paid for and handed to the gas company. The gas company, by section 44 of the Gas Inspection act, is required to keep the public informed on this point by putting up such certificate where it is open to inspection by the board or anyone else. The gas company has no right to withhold these certificates from the public. I forward you a blue book for 1911 in which you can see the gas tests reported monthly to the department.

"In regard to voltage tests of electric light, no tests have been made lately so no reports have been made to the B. C. Electric Railway company."

If you have young children you have perhaps noticed that disorders of the stomach are their most common ailment. To correct this you will find Chamberlain's Stomach and Liver Tablets excellent. They are easy and pleasant to take, and mild and gentle in effect. For sale by all dealers.

Extract From Edson Bulletin

FROM EDMONTON CAPITAL, DECEMBER 30, 1911

Start Construction Within Ten Days If Bonds Guaranteed

Grand Trunk Pacific Official Says Company Is Ready to Begin Work on Grande Prairie Line—Business Men Coming West

(Western Associated Press)

Winnipeg, Man., Dec. 29.—Mayor Laurence of Edson who is now in Winnipeg, interviewed Mr. Hinton regarding the construction of the proposed G.T.P. railway from Edson to Grande Prairie and Peace River, and was informed that the company is prepared to start in ten days if the Alberta government would give assurance of a bond guarantee the same as is given other railway companies. A party of Portage La Prairie and Brandon business men will leave January 3 on a special car on the G.T.P. for Edmonton and Edson to look over that part of Alberta.

SESSION FULL OF INTEREST

(Continued From Page One)

understanding with the federal government preliminary to the formal consideration of British Columbia's request for a more equitable readjustment of fiscal terms with the Dominion of Canada. It is also quite probable that before the session closes, an announcement may be made by Hon. Mr. McBride of his intention of taking up with Downing Street direct the intricate question of Asiatic immigration in all its phases of so great importance in connection with the preservation of this province and this Dominion as a white British Commonwealth.

Speech From the Throne

The speech from the throne with which His Honor will this afternoon formally inaugurate the third session of the twelfth parliament of British Columbia, may in the natural course be expected to contain suitable reference to the coronation of His Gracious Majesty King George V., and to the observance of that imperially special event, as well as the fact that British Columbia was officially represented in London at the great ceremonies of time last. The marked gratification experienced by British Columbians at the appointment of H. R. H. the Duke of Connaught as Governor-General of Canada will no doubt be emphasized, and the house in all probability asked to adopt a loyal address of welcome at the same time complimenting the retiring representative of His Majesty in this Dominion the Earl Grey, whose active interest in this western province has been a matter of the very greatest satisfaction to its people, upon the recent completion of his most successful term of office at Rideau hall.

The speech may also naturally be expected to contain suitable reference to the unexampled prosperity and progress of the province during the past year, and the very gratifying expansion in the revenues noted during the just completed twelvemonth. A further expression of satisfaction will be thoroughly in order in reference to the transfer of the Songhai Indian reserve to the province and the very ample and suitable provision made for the removal of the Indians to another and infinitely more appropriate reserve for their future occupancy.

Forestry Legislation

Reference may be expected in the speech also to the facts that the report of the taxation commission has recently been completed and will shortly be presented to the legislature; to the completion of the important work of the revision and consolidation of the provincial statutes, and that as a result of the investigations of the forestry commission of 1909-10 a department of forests is to be constituted by provincial legislation, and a bill presently dealing with the adequate conservation and administration of the vast timber wealth of British Columbia.

Some reference may also be looked for to the development that has taken place during the past year at Strathcona park, in connection with which a sum will probably be asked for, in the estimates for the further prosecution of the desirable development of this great provincial playground for the delight of the people of British Columbia and the attraction and entertainment of tourists from all parts of the world.

The visit of the Hon. Premier, the Attorney-General, and the Minister of Public Lands to Ottawa, to discuss outstanding provincial matters with the federal authorities will no doubt obtain attention in the speech from the throne and some announcement be made preliminary to the presentation of papers to the house having reference to negotiations conducted at the federal capital by the representatives of British Columbia in their several conferences with Premier Borden and his colleagues. In this connection mention has already been made of the fact that the administration of waters in the railway belt has been transferred by amicable arrangement to the water branch of the provincial lands department, and a bill to give effect to this most desirable outcome of the recent negotiations will probably be offered for consideration during the course of the session.

Growth in Public Works

Mention may also be looked for in the Hon. Premier's speech of the marked growth of public works in sympathy with the settlement and growth of British Columbia, and of the fact that a contract has recently been let for the much needed enlargement of the provincial buildings, and that this work is now proceeding most satisfactorily. Measures for the further encouragement

COWAN'S PERFECTION COCOA

Is good for Growing Girls and Boys—and they like it. It nourishes their little bodies and makes them healthy and strong.

Cowan's Cocoa, as you get it from your grocer, is absolutely pure. Its delicious flavor is obtained by the use of the highest grade of Cocoa beans, skillfully blended. Nothing is added to impair the health-building properties of the Cocoa.

Do You Use Cowan's Cocoa?

CLAIM CANDIDATE IS DISQUALIFIED

Objection is Taken to Status of Mr. John Meston Running in Ward Number Two for Alderman

Alleging that under the provisions of the Municipal Clauses Act Mr. John Meston, candidate for alderman in Ward Number Two, is not qualified to hold the position, a protest has been entered against Mr. Meston's candidature by a Mr. Martin, an elector of the ward. Notice of the protest was served upon Mr. Meston yesterday afternoon, as well as upon Returning Officer Northcott. It is alleged that Mr. Meston is disqualified under section 19 of the act on the grounds that he has an interest in a contract with the city, or indirectly, in that when nominated for the office of alderman for Ward Two there were monies due and owing to him by the city.

Mr. Meston, seen last evening, declared he knew of no reason why he should be disqualified, and that he would remain in the field. It appears that since his nomination on Monday last Mr. Meston, who has throughout the past year done considerable work for the city, was paid money for such work, two sums being passed upon by the finance committee of the council, which met on Tuesday morning last. City cheques for these amounts were put through in the usual manner, but for some unexplained reason did not bear the date of Tuesday or yesterday, the days on which they were issued, but were ante dated as of December.

The legal point arises whether, under the Act, a person being candidate is disqualified if he receives money for work done for the city and receives it after being nominated, though before being elected. It is understood that such an opinion has been secured by those opposing Mr. Meston's election.

LOSS OF THE ILSE

Capt. Helmer Tells Thrilling Story of the Fate of Former Japanese Liner Well Known Here

Capt. Helmer of the Japanese liner Ilse, which recently lost in a typhoon off the China coast, told a thrilling story of the disaster on his return to the city. The liner, which was bound for Hongkong, where she was to have been sold, sprung a leak, and took a heavy list to starboard. The captain found it impossible to keep the fire going. The vessel could not be steered and was carried helplessly by the current and light wind was seen and the anchor was dropped. The wind and sea increased and while the crew was trying to pump the water out, the liner was swamped one after the other, and the Ilse drifted on rocks near Swatow.

"What happened then," the captain said, "took place quicker than it takes to tell. The liner was broken over the ship. All the doors and hatchways were soon jammed. I ordered all the crew to be banded, and put them with lifeboats. We went to look after the saving of my wife and two children, who, together with a Japanese servant, were in the saloon. The passage into the saloon was blocked by the broken chairs and the crew was unable to get through. The two small children were wrapped in flags with their four mothers, and taken to deck. I had my little girl in my arms, while one of the officers held the other child. We had just come up to the bridge when the ship suddenly lay on her side, and a gigantic wave broke over the bridge and washed us all overboard. I was struck on the head by a piece of wreckage and had stunned. My child was torn from my arms, and in the boiling sea I could not catch her again. My wife and myself, as well as the officers and crew, were driven down to the bottom of the sea. I was seriously wounded and bleeding. We lay on the sand alone, exhausted. The second engineer, my two children and the nurse, as well as all the Chinese crew, were swallowed up by the raging sea. The dead engineer and the body of my little daughter, as well as the bodies of the Chinese crew, were found later, some of them being terribly mangled by the rocks. We never saw any more of our four-year-old child. The little body must either have been torn to pieces on the rocks or else eaten by the sharks, which are numerous in that vicinity."

"Most revolting and barbarous was the conduct of the Chinese inhabitants of the coast. There were about 100 of them standing on the beach, watching us, and about on my pieces of wreckage, but they did not stir a hand to help us, although numerous junk lay in the calm water close to the shore. Probably they would rather have had lost our lives, for when we were driven ashore I looked at though these yellow pirates would rob us of the few valuables which we had, and they would have killed us. They did not even spare the corpse of the poor little servant, which they deprived of its few rays of life. If the lifeboat attendant, a German named Bruhn, and his assistants had not appeared, the hands would probably have been left to serve about knocking us on the head. Here Bruhn and his wife provided us with clothing and dressed our wounds, which are not quite healed yet. We spent three days at the lifeboat, and then proceeded to Swatow."

BIG HARBOR IMPROVEMENTS

(Continued From Page One.)

of waterfrontage. The scheme also comprises the cleaning up of the inner harbor, deepening it to a uniform depth ample for the coastwise trade and removing all obstructions to navigation.

Work to Commence.

The commencement of this work, which will tend to bring Victoria into great prominence among the ports of the North Pacific coast, will probably take place in the early spring, and will furnish work for a great number of workmen.

The announcement from Ottawa comes opportunely with the visits now being made to the North Pacific ports of special representatives of the large British and European steamship companies which contemplate the establishment of steamship lines via the Panama canal. Mr. E. J. M. Nash, special agent of the Royal Mail Steamship company, having 324 vessels, is now in British Columbia investigating the proposed port development at various Pacific coast ports, and other agents are also making similar investigations, the expectation being that a large number of steamship lines will come to Victoria and other North Pacific ports. Among those lines which

have already indicated that they will send steamers to this port are the Harrison and Direct lines, the Maple Leaf line, Compagnie Transatlantique, Swedish-Johnson line, Hamburg-Amerika—in fact the majority of the world's larger shipping concerns are looking to the trade to the Pacific via Panama canal.

Mrs. W. West of Vancouver, who sustained serious burns through the ignition of her clothing while she was sitting by an open fireplace, has died of her injuries.

GOVERNMENT CONTROL

In the Other Western Provinces the Trade is Controlled by the Provincial Government in the Interests of Uniformity.

The total amount of money now invested in Victoria hotel premises represents roughly five million dollars. The proposed improvements converting the saloons into hotels, such premises as the St. James' on Johnson street, and eight-story, fire-proof building; the Windsor hotel on Government street; the large hotel across the street from the Dominion, the Grand Trunk Pacific, the Canadian Northern and many others, will represent a sum of not less than ten million dollars, which would only fairly well take care of the expected increase in population.

It would be a shame to degrade this to a cheap lodging house proposition. One of the great advantages of the hotel business is that the entire premises are under the control of the license inspector, but the great point of all is the advantage of an hotel to the working man. He can always be provided with accommodation until the capacity is taxed.

A license hotel is the working man's club. While the millionaire can enter his club and have the privilege of refreshments day or night at any time, the working man, without the license system, can only do so at the privilege of taking a drink at 12 o'clock at night, the same privilege should be afforded to the man who performs a hard day's work.

Through the means of the licensed hotel it has been demonstrated in the province of Alberta, Saskatchewan and Manitoba that the hotel license system is the best for all classes. They provide cheaper meals and sleeping accommodation than they do in unlicensed districts for working men as well as for the farmers and gardeners coming to town.

For that very reason the promoters of local option have been unsuccessful in carrying off election on the province of Alberta, the conditions of Alberta being more like those of British Columbia than any other province. Here is a practical demonstration which should not be overlooked.

To cripple the license system is to cripple the best system of conducting the trade yet devised. Adv. The passage into the saloon was blocked by the broken chairs and the crew was unable to get through. The two small children were wrapped in flags with their four mothers, and taken to deck. I had my little girl in my arms, while one of the officers held the other child. We had just come up to the bridge when the ship suddenly lay on her side, and a gigantic wave broke over the bridge and washed us all overboard. I was struck on the head by a piece of wreckage and had stunned. My child was torn from my arms, and in the boiling sea I could not catch her again. My wife and myself, as well as the officers and crew, were driven down to the bottom of the sea. I was seriously wounded and bleeding. We lay on the sand alone, exhausted. The second engineer, my two children and the nurse, as well as all the Chinese crew, were swallowed up by the raging sea. The dead engineer and the body of my little daughter, as well as the bodies of the Chinese crew, were found later, some of them being terribly mangled by the rocks. We never saw any more of our four-year-old child. The little body must either have been torn to pieces on the rocks or else eaten by the sharks, which are numerous in that vicinity."

Majestic Theatre

Programme Wednesday and Thursday.

"Love and Hatred," strong western drama; "A Puritan Courtship," a story of Puritanism; "An Eye for an Eye," the last days of King Henry III of France; "Right or Wrong," war picture; "Mexican as It Is Spoken," a rip roaring comedy.

To the Electors of Ward Two

I, JOHN MESTON

Having received notice from one, Barney Martin, living at Prince saloon, corner of Government and Pandora street, to say I am disqualified through my account with the city for work done, I do hereby declare to the best of my knowledge and belief there exists no cause for my disqualification, as I have no contract or disputed account with the city.

This is a direct attempt to injure my election.

GEO. ROGERS.

CORPORATION OF THE DISTRICT OF OAK BAY.

NOTICE

Municipality of the District of Oak Bay to wit:

PUBLIC NOTICE is hereby given to the electors of the Municipality aforesaid that a poll has become necessary at the election now pending for the same, and that I have granted such poll, and further, that the persons duly nominated as candidates at the said election, and for whom only votes will be received are:

Brown, James for Councillor, 2032 Wilfrid Road, Fairview.

Hargreaves, James Henry, for Councillor, 2444 Cadogan Road, Fairview.

Henderson, William, for Councillor, 2178 Oak Bay Avenue, Archipel.

Loft, Herbert, for Councillor, 615 Beach Drive, Real Estate Agent.

McIntyre, James, for Councillor, 940 Newport Avenue, Surrey.

Noble, William, for Councillor, 1800 Hampshire Road, Fairview.

Pemberton, Frederick, for Councillor, 401 Paul Bay Road, Fairview.

Smart, John, for Councillor, 2303 Oak Bay Avenue, Fairview.

Of which all persons are hereby required to take notice and to govern themselves accordingly.

Given under my hand at Oak Bay, British Columbia, this eighth day of January, in the year 1912.

H. F. FULLER, Returning Officer.

TO THE ELECTORS OF THE CITY OF VICTORIA

LADIES AND GENTLEMEN:

A number of our fellow Citizens, representing various sections of the workers and business life of the city, have asked me to stand for the Office of Mayor at the approaching Civic Election. After giving the matter due consideration I have decided to be guided by the wishes of those who have so kindly offered to support my candidature, and I assure you all that I do so, fully realizing the responsibilities resting upon one who seeks the office at this important time in the history of Victoria. If elected, I shall not be altogether unprepared. Four years as Alderman give one a fairly intimate knowledge of the minute details of civic government and the laws of the Province, which cover Municipal Administration.

Thirty odd years of business experience have taught me the value of careful supervision and economical management of matters entrusted to my care. The Mayor holds a position of trust, and I shall endeavor to be as faithfully as I would my own. Upon matters relating to the moral welfare of the community I ask to be judged by my past record, and wish it to be clearly understood that I shall strive to protect those who are doing a lawful business and extend to them every right and privilege to which they are entitled, but I shall, if elected, endeavor to see that all corporations owning and operating public utilities live up to the spirit as well as the letter of their obligations, and that in exercising their powers within the Municipality they shall do so with the least possible inconvenience to the citizens. If the City has not at present jurisdiction to compel the corporations to adopt such a policy I shall endeavor to secure the necessary authority from the Legislature.

I shall strenuously oppose the monthly increase for the business and other telephone proposed by the B. C. Telephone Company.

The enormous increase in the cost of living, brought about in recent years, compels the serious consideration of the claims of the wage earner and the salaries of civic officials. If elected I shall endeavor to deal sympathetically and liberally with such demands, and urge upon the Council the same liberality of spirit.

In all cases where the ratepayers' will has been made known through a referendum, I will accept the verdict as final and will loyally endeavor to carry out the people's mandate as thus expressed. I say this with special reference to the introduction of an additional water supply from Sooke Lake. I will exert every effort to secure from the Province, as soon as possible, a portion of the Sooke Reservoir, for a Public Park in Victoria West, which is so greatly needed.

I shall support and energetically push forward all necessary paving and sewerage work, as well as the extension of our sewer and water systems, all of which must keep pace with the rapid growth of the City. The obligations entered into regarding certain funds from Mr. Carnegie in aid of our Public Library must be sacredly carried out and an amount expended yearly for the support of that institution to maintain its efficiency up to a standard which is reasonable for a City of our size.

As the School Board is an entirely independent body, elected by and directly responsible to the people, I shall not attempt to exercise any guardianship or fatherly care over that body, but will endeavor to work in harmony with the members of the board, co-operating with and assisting them in every possible way in their efforts to supply the educational necessities of our rapidly growing city. I was a member of the energetic committee which worked to place the new High School in the Fernwood District, and I hope that all my friends will give the High School their best support. The proposed building may seem at first glance to be a little ahead of the time, but it must be remembered that we are building for the future, and that when completed the proposed building, besides serving its purpose, will be a source of pride to our citizens and an ornament to the City.

If elected, I shall endeavor to work harmoniously with the Board of Trade, the Island Development Association, the Zoning and Labor Council and all other bodies striving to promote the material prosperity of Victoria.

I shall be satisfied to fill one office only, that of the Mayor, and by placing a proper degree of responsibility on the shoulders of each Alderman, I believe there will be no difficulty in having the machinery of our civic government run smoothly.

In entering upon a contest for this high and responsible position I have no personal ends to serve; in fact, I should shrink from the responsibility were it not that it has been represented to me by many of my fellow citizens that it is my duty to place my services at your command and my sincere desire to do the best I can in every position in life to which I have been called to act. It is in this spirit that I ask for the support of my fellow citizens in the forthcoming election.

I am, Ladies and Gentlemen, your obedient servant,

J. L. BROWNE.

To the Electors of Ward 4

Ladies and Gentlemen:

Having been requested by a number of electors to become a candidate for Alderman, I beg to announce myself for Aldermanic honors for the above ward, and respectfully solicit your vote and influence.

Your truly,

FRANK LEROY

ALEX. PEDEN.

To the Electors of Ward 3

Ladies and Gentlemen—

I beg to announce that I am a candidate for the above ward and respectfully solicit your vote and influence.

W. F. FULLERTON.

MUNICIPALITY OF SAANICH

Ward 2

I beg to announce myself as a candidate for the office of Councillor.

W. J. SCOTT

Phone X1525

Municipality of Saanich

Ward 2

A joint public meeting will be held to discuss municipal affairs in St. Mark's School, House, Boleskin Road, Friday, January 12 at 8 p. m. sharp.

G. MCGREGOR

W. J. SCOTT,

Candidates for Councillor.

To the Electors of No. 2 Ward

Owing to the influence brought on us by a large section of the taxpayers in No. 2 Ward we have consented to ask for your votes and support in the Municipal Election on Thursday next. The growth of Victoria demands ever increasing care in its expenditures, and we feel that our large interests in the city will ensure to the taxpayers full value on money expended. The necessity of encouraging more industries to the city is most important, and we will use every endeavor to attract capital and investors for the purpose of encouraging manufacturing, and thus provide more employment for our workers and opportunities for our children to learn skilled trades.

We are in favor of a continuance of a policy looking towards providing more open spaces and parks for the children and young people of the city, believing that it makes for the betterment and health of our young men and women. No stronger evidence of this is required than a visit to the North Ward Park. Assuring you of our sincere desire to help anything that will add to the prosperity of the people of Victoria, and wishing the electors a happy and prosperous New Year.

We are, yours sincerely,

RUSSELL H. HUBER, GEORGE W. ANDERSON.

To the Electors of Ward Two

Having consented to become a candidate for Ward Two, I respectfully solicit your vote and influence in support of a Progressive Policy in all departments of civic work.

JOHN MESTON.

To the Electors of Ward 3

Having been requested by a large number of electors of above ward I will be a candidate for Alderman for above ward and respectfully solicit your vote and influence.

ALEX. STEWART.

TO THE ELECTORS OF WARD 3

LADIES AND GENTLEMEN:—In response to requests from a number of citizens, I have consented to seek election as an alderman in your ward, and hereby solicit your vote and influence in support of my candidature.

Sincerely Yours,

CHRISTIAN SIVERTZ

On the Waterfront

MEXICO MARU AT QUARANTINE

Osaka Shosen Kaisha Liner will Reach the Outer Wharf This Morning from the Far East.

EMPERESS OF JAPAN SAILS FOR YOKOHAMA

Three Big Liners at Outer Wharves Every Day During the Week—Big Business at Docks

Shortly after midnight the steamer Mexico Maru, of the Nippon Yusen Kaisha line reached William Head from Yokohama and the usual ports of call in the Orient with a cargo of about 3500 tons of general freight, of which 350 tons will be discharged at the outer wharf. The R. M. S. Empress of Japan, Capt. Robinson, of the C. P. R., left the outer wharf last night outbound to the far east with her hold full of the cargoes of flour, machinery and general merchandise. It was currently reported among the local Chinese that some of the cases labelled machinery contain munitions of war destined to the rebels in China.

Outer Wharves Busy

Every day this week there has been at least three large ocean liners at the outer wharf, and some days four vessels have been there. The Teucer of the Blue Funnel line, which has been completing a shipment of 3000 barrels of whale oil for Glasgow, will leave for the Sound this afternoon and the Crown of Galicia, one of the big freighters of the Pacific Service & Henderson in the Disraeli line, operated in conjunction with the Harlan Line, will remain until tomorrow, taking on 7500 barrels of whale oil, lumber and other cargo, consigned to the United Kingdom.

Inaba Maru Out

Tomorrow the Japanese steamer Inaba Maru, Capt. Tetsunaga, of the Nippon Yusen Kaisha line will leave the outer wharf for the Orient, taking a capacity cargo, including large shipments of flour, cotton and machinery. The Londale of the Canadian Mexican line is to sail on Monday for Santa Cruz.

Liners on Way Here

The steamers Montague of the C. P. R., Titan of the Blue Funnel line, Ryjiga of the Weir line, Kamakura Maru of the Nippon Yusen Kaisha and the Chicago Maru of the Osaka Shosen Kaisha are all on the way from Yokohama to this port. The Kamakura Maru, which left Yokohama on January 3rd, is due next Wednesday, the Montague, which sailed on the 7th and the Titan which left the previous day, are both expected next Saturday. The Chicago Maru left on January 10th and the Norwegian steamer, Ryjiga left the same day.

A fleet of Japanese steam freighters has been engaged by the Mitsui company to carry raw sugar from the Japanese plantations in Formosa to the B. C. Sugar refinery at Vancouver and arrangements are being made for outward cargoes of lumber for these vessels. The Osaka Maru No. 2 will be the first steamer to come from Formosa and the Manzan Maru will follow. Two other Japanese freighters have also been taken for the same trade.

Thor on Route

The steamer Thor left San Francisco on Tuesday bound to Nanaimo for another cargo of coal for the Western Fuel Company.

Free Marine School

Captain Watrous of the Marine and Fisheries department will hold the second meeting of the Marine school this evening at 8:15 o'clock in room 1, on the third floor of the Post-office building. The future meetings of the school will be held in the same room on Tuesday and Friday evenings of each week, at 8:15, with further notice. The subject to be taken up at tonight's lecture will be "Compass, Their Errors and Corrections."

Leaky Boats Repaired by Newton & Greer Co., 1216 Wharf street, makers of "Nag" Composition.

ADVANCE OF FREIGHT RATES ON ATLANTIC

Premiums Being Paid by Related Shippers for Cargo Space—Business brisk on All Lines

NEW YORK, Jan. 10.—Ocean freight rates have advanced by leaps and bounds within the last few months and since the new year began have reached a point which has not been experienced by shipping men for ten years.

Meanwhile, available cargo space is limited and premiums are being paid by related shippers for quick accommodation. The advance runs through the whole range of commodities and affect all of the Atlantic and Gulf ports.

It is only two years since shippers had the transportation lines practically at their mercy. Several of the big Atlantic liners had to reduce their dividends and tramp steamships were laid up by hundreds.

The drought in Europe has called for heavy shipments of foodstuffs and fodder. The American flag and the flag of other nations are being used to the utmost.

MEDAL PRESENTED TO CAPTAIN OF TATOOSH

Seattle Men Give Capt. Bailey Diamond-Strudded Medal and Testimonial for Rescuing Steamer Washington

Capt. Charles T. Bailey of the tug Tatoosh, of the Puget Sound Tugboat Co., has been presented with a medal studded with diamonds and an address for the rescue of the steamer Washington with forty-eight persons on board from the breaking of the ice in the Columbia river on November 12, 1911.

Mr. Bailey, who made the presentation said: "Capt. Bailey and his crew have attracted the attention of lovers of courage and bravery throughout the world. The men who served under him are known for their bravery in every clime, and they have earned the respect of the world."

Mr. Bailey, who made the presentation said: "Capt. Bailey and his crew have attracted the attention of lovers of courage and bravery throughout the world. The men who served under him are known for their bravery in every clime, and they have earned the respect of the world."

AN ALL CONCERN

Sent Freight Across Panama Isthmus Over Sixty Years Ago by Mule and Pack Horse

Mr. E. J. M. Nash, who is now engaged in an investigation of the trade and harbor facilities, now provided and contained in the act of the North Pacific in view of the probable entry of the Royal Mail Steam Packet Company into this trade, represents an old established concern, now controlling the world's greatest fleet of mail ships of 324 vessels. He is now in Vancouver, and is expected to come to Victoria after his visit to the mainland port. He has expressed himself in interviews as convinced that a large trade with the ports of the North Pacific will follow the opening of the Panama canal, both in freight and passengers. He contemplates that a large immigrant travel will take place via the Panama canal.

The company was given a charter 75 years ago. Before the days of steam the King's mails were carried in King's ships, and generally in the old ten-gun brig.

The advent of the steamship suggested the possibility of regular despatch of mails overseas, and it was obvious that the duty was too great a task to be undertaken by the navy. It was then thought desirable to form a public company to undertake the general ocean mail service of the nation.

On September 26, 1837, a charter was given to the Royal Mail Company, and this company's vessels sailed from Southampton for the West Indies. The terms of the mail contract entered into in 1840 were not made with the company, but with the Admiralty.

Under the terms of the contract, the company was to provide a fortnightly service, and it was provided that 14 vessels "capable of carrying guns of the largest calibre used in Her Majesty's navy" should be provided, and be at the disposal of the admiralty in time of war.

When the Crimean war came the Royal Mail steamers were taken for transport service, the greater portion of the other vessels being sent to the Crimea. The company was provided with 29,237 tons, trifling in comparison with the R. M. S. P. Company's present fleet, but an armada in those days. The company's steamer Portia was launched at London on May 22, 1841, and she followed the Thames, which took the maiden sailing. Connection was made in 1846 with the Pacific Steam Navigation Company, whose fleet was acquired by the R. M. S. P. Co. in 1910.

The Royal Mail Steam Packet Company began its service via Panama to Pacific ports in 1846. This early development consisted in instituting a service by mules and packhorses across the isthmus. Beginning with wooden paddle steamers the company gradually began to acquire a fleet of iron screw boats. Then followed the advent of the compound engine, the transition from iron to steel for construction, and then the triple-expansion engine and the company kept up with the march of progress and branched out, starting lines to Brazil, and extending the voyage of the West India steamers to Colon, and in Europe connections were gradually opened with France, Germany, Holland and the Peninsula. Then in 1884 the line between New York and Brazil was started, and the progress has continued, many lines of service have been added, and the company has acquired since Sir Owen Phillips, K. C. M. G., took charge, first the Shire, then others, five lines being controlled during the past few years, the last acquisition being that of the Union Castle line to South Africa about a month ago. The Pacific Steam Navigation Co., acquired in 1910, was almost as old as the R. M. S. P. Co. itself, being started but six months later, its first steamer being the Nova Scotia, built and run by the first to ply on the coast of South America. To be joined a year later by the Ecuador. At this time, and up to the advent of the compound engine in 1868 enabling steamers to make long voyages with sails, the crew traffic around the Horn was done entirely by sailer in 1869 a service was opened via the Strait of Magellan.

The company's steamer Portia was launched at London on May 22, 1841, and she followed the Thames, which took the maiden sailing. Connection was made in 1846 with the Pacific Steam Navigation Company, whose fleet was acquired by the R. M. S. P. Co. in 1910.

INQUIRY CONCERNING QUEEN CITY STRANDING

Capt. Gaudin, Commissioner of Weeks, Arranging for Court to Be Held on Thursday Next

Arrangements are being made to begin the marine court of inquiry regarding the stranding of the steamer Queen City on Duquesne point, Alberni canal, on Thursday next. Capt. James Gaudin, commissioner of weeks will head the court and Capt. G. Eddie, of Vancouver, who has acted as assessor on the several inquiries recently held will sit with him and a third assessor will be appointed. It is anticipated that a coasting master will be sought for the position, as it is considered desirable to have a local navigator acquainted with the coastwise trade on the court.

LETTERS TO THE EDITOR

The Prairie Club Meeting.
Sir,—Regarding controversy re the Prairie club meeting in Victoria, the January, 1909. As my name has been used freely at the different meetings being held in this municipal election and also that of the Prairie club and the idea conveyed by Mayor Morley that we had shirked our responsibility in the matter and left him to shoulder the burden of paying for hire of theatre, I may state that the facts are as follows: The Prairie club did not approach Mr. Morley or his agent, Mr. Morley's statement that I "had the matter in hand and was obliged to speak for the theatre at once, and that I went to him and asked him what I had better do, as I would not have time to go around among the Prairie club members and pick up the cost" is not correct, and I cannot understand why Mayor Morley wishes to misrepresent the matter. Mr. Frank Hinds, acting as agent for the theatre, came to me and made a request that the Prairie club call a meeting in the theatre to give both the candidates a fair chance to speak. I told Mr. Hinds that the Prairie club did not care to call a meeting. First, because some of the members objected; second, because they had no money for that purpose. I was assured that it would not cost us a cent, that they would raise the money among "Morley's supporters." He said he would not object to paying his share. On this understanding the meeting was arranged. I never saw the manager of the theatre before or after. I did not engage the theatre. The club got no bill. I had nothing to do with the paying for it. I never saw a receipt for money paid. I did not know who paid it. Mr. Morley did complain some time after that he had to foot the bill. Whether or not this is true, I do not know, but such was not the expectation before the meeting. It would seem that some of his supporters failed to come through. The only complaint Mr. Morley made to me was—his usual one—that he did not get fair play at the meeting. As chairman of the meeting, I tried to treat Mr. Morley and Mr. Hall alike. As the meeting was arranged by Mr. Morley or his friends, and as Mr. Hall was an invited guest of the Prairie club, as he thought, he, Mr. Hall, had no call to pay anything. These, to the best of my recollection, are the facts in the matter, as other members of the club, also Mr. Hinds, can, if they will, verify.

C. H. REVERCOMB.

More About Tom James

Sir,—A letter from William Roberts, published in your columns yesterday, calls for some comment, and as I have been in close touch with the Songhees Indians for upwards of fifty years, perhaps I can set some matters right. Roberts says that Mrs. James belongs to the Sapeam tribe. I am glad to get this statement from one of the Songhees. The home of the Sapeam was Victoria harbor, and their village stood in front of where the parliament buildings now stand. The home of the Songhees was at Albert Head, from

which place they moved to Victoria harbor, where the Hudson Bay Company built their fort. Sir James Douglas bought fourteen parcels of land from the various bands of Indians in and about Victoria, and placed the people on three reserves—one at Esquimalt, one on Discovery Island, and the principal one in Victoria harbor.

In 1873 I was the Indian missionary at Victoria, and William Roberts' father and mother were both members of our mission, and if, my memory serves me right, William was but an infant at that time, so that he was not born when Tom James and his wife were married. I herewith append a sworn statement by Mrs. James, and trust that British justice will see that this poor old couple will not be thrown out of their home without the means of providing themselves with another.

C. M. TATE,
Methodist Missionary.Victoria, B. C., January 10, 1912.
Canada, province of British Columbia, to-wit:

In the matter of the Songhees reserve and Indian, Tom James.
I, Mary Ann James, of the city of Victoria, in the province of British Columbia, do solemnly declare:

1. That my Indian name is Sitamitza. That I was born in my father's house in front of where the present parliament buildings now stand. That my mother died in giving birth to me, and my father was killed when I was a baby. That my uncle, Chief Seestnak, adopted me. That when Sir James Douglas moved the Indians to the reserve across the bay, my uncle asked for a place at Esquimalt. That my younger days were spent between Victoria, with my aunt, Seestnak's sister, and Esquimalt, with an occasional visit to my grandmother at Saanich.

2. That my husband, Tom James, came to Victoria when he was a young man, and together we worked for Dr. Tolmie, Mr. LeClair, and Tom Carter. We then moved in from the country, and my husband worked for Mr. Bayward at the sawmill. When living in a shack near the mill two of my children died, and were buried on the Songhees reserve.

That both my husband and myself were always invited to all the functions on the reserve, in common with other members of the tribe. That at the time of my children's death Chief Skomlax asked us to build on the reserve as that was my home. My husband objected as he belonged to Cowichan, but the chief insisted on our moving, so my husband at last consented. The Chief Skomlax and Joseph Atkinson marked out the land for us, and there we have lived continuously for the past 34 years, and it was not till Chief Skomlax died that any one tried to make trouble. We had then been in our house about 18 years. When Agent James told us that some of the Indians objected to our living on the reserve, as my husband was a Cowichan, I told Mr. Lomas that he might remove my husband if he chose, but I intended to remain where I was with my children, as that was my home. When my cousin, Seestnak's daughter, heard that some of the Indians were objecting, she went with me to the Indian office, and Mr. McKay informed me that I was not

only born into the tribe, but as the adopted daughter of Seestnak I could claim place amongst the first families as a member of the Songhees tribe. When Mr. Lomas next visited Victoria, this was communicated to him by Mr. McKay, and no more was said about our moving. When Mr. Robertson became Indian agent, Chief Cooper tried again to have us moved, because our names were not on the list. I do not know who took my name off the list, nor why it was taken off, as my home has always been at Victoria. When I got my husband, he left his home at Cowichan to live with me, as other Indians have done, and has never returned. All the time of Skomlax's chieftainship my husband took part in the affairs of the reserve, and was also provincial police. I think this is the reason why the young people objected to my husband, because he often imprisoned one and another of them for drunkenness.

That I have had nine children, most of whom were born on the Songhees reserve, and eight of whom were buried there, the Songhees Indians assisting at the funerals. My remaining daughter is the wife of Willie Jack, a member of the Songhees tribe.

That after spending nearly fifty years of my life on the Songhees reserve, and my husband about thirty-four years, we consider it our home.

And I make this solemn declaration conscientiously believing it to be true, and knowing that it is of the same force and effect as if made under oath, and by virtue of "The Canada Evidence Act."

Declared before me at the city of Victoria, in the province of British Columbia, this 28th day of December, A. D. 1911.

MARY ANN JAMES,

Her x Mark.

(Signed)

"ARTHUR LEE."

A notary public in and for the province of British Columbia.

Cemetery Protection

Sir,—For the information of many electors of Ward Two, will you kindly inform the undersigned if the gentleman Mr. John Meston, now seeking election as alderman in the above ward, is the same John Meston who, in appealing to the electors of 1908, asked that he be returned on the ground of his record during the preceding year, when he officiated as chairman of the cemetery committee or the 1908 council? We all remember Mr. Meston's appeal that he be allowed to "finish his work at Ross Bay" and we are equally aware of the response. Mr. Meston's work at the cemetery was abruptly finished by the electors, who relegated him to private life. What is, or rather was, Mr. Meston's record as chairman of the cemetery committee? His up-to-date methods of preserving the cemetery for the future and preventing a continuance of the scandalous conditions there whereunder bodies of loved ones were daily washed out to sea, consisted chiefly of futile talk, supplemented by equally futile measures to prevent the erosion of the cemetery. At a cost of over \$3000 of the ratepayers' money he carried out a scheme of protection by haphazard work of piles

and planking, which lasted only until the first moderate gale, when the "work" on which he depended for support was swept away as abruptly and effectively as were his ambitions by the electors. It remained for the council of 1911 to take the first effective and adequate measures for the carrying out of a work which, had Mr. Meston appreciated the necessity of the same, would have been completed during that gentleman's term of office. After being defeated four consecutive times, Mr. Meston is now seeking approval in opposition to men who have determinedly advocated works of improvement, and, furthermore, carried them out.

M. G. PHIPPS.

A Paradise on Earth

Englishmen of commerce made Calcutta, but Delhi is the city of the Indians. One wonders what the population of the new capital will become. At present it has not more than 250,000 as compared with the 14 millions of Calcutta. It appeals to Hindus and Mohammedans alike. Like nearly all Indian cities, it has antiquities of the deepest interest or beauty jostling with mean and sordid erections. The exquisite Hall of Private Audience with its supremely delicate arches and mosaics—the home of the famous inscription, "If there is a Paradise on Earth, it is here, it is here, it is here"—is sandwiched in between the barracks.—London Spectator.

Britain in Tripoli

Egyptian troops are on the way to occupy Sollum, in Cyrenaica. Tripoli, Sollum has always been claimed by England on behalf of Egypt, but Turkey has always resisted the claim stubbornly and strenuously. The Sultan by an irade has now ceded Sollum to Egypt "until the end of the war" when Britain has pledged herself to discuss the frontier with Italy if she succeeds. The port is the best on the coast except Alexandria, and is capable of being made into a great naval base that will be a checkmate to Tobruk, not far distant, which the Italians dreamed of making another Bizerta.—London Daily News.

New Brunswick's Finances

The New Brunswick provincial accounts for the year ending October 31 are just issued. They show the ordinary revenue to be \$1,347,077.05, and the ordinary expenditure of \$1,403,546.85, a deficit of \$56,469.80 on the year's operations. The principal items are: Receipts, balance from last year, \$36,621.71. Dominion subsidies, \$21,660.06. Territorial revenue, \$643,439.08. Liquor licenses, \$46,631.07. Provincial hospital, \$25,089.63. Expenditures: Executive government, \$40,086.66. Interest, \$215,192.35. Education, \$270,655.73.—Arcadian Recorder.

It is expected that Reeve Mars will be returned without opposition in Coquitlam.

Mrs. Simpson's children's Cinderella dance has been postponed till Thursday, January 18th.

By the courtesy extended to us by our landlord, we are enabled to stay in our present premises until the end of the present month. We have had a very successful sale up to the present, and we will still carry this on during the time that we remain in our stand on the corner, as we wish to dispose of all our stock as nearly possible and we offer our still well assorted stock to the public regardless of the cost.

Vancouver reports the most remarkable hold-up case on record in this province. A young Englishman has informed the police that while proceeding down Melville street, he was held up by two men armed with revolvers. He ran from them and crossing the road sought protective co-operation from two other men, only to find to his astonishment that they too held revolvers and demanded his possessions. He claims to have been relieved by them of \$18.00.

Vancouver's improvement values during 1911 increased by \$16,000,000. A scarcity of male teachers is reported throughout British Columbia.

COZY LITTLE HOME

AMONG THE OAK TREES

"If I were married, I'd buy it myself," is what one of our clerks says.

5 rooms, modern, bath and separate toilet and all other conveniences found in modern homes. 40ft. lot with 10 oak trees, near Oak Bay Junction, close to car line. Price \$3200, easy terms. Come in and let us tell you more about it.

RECOUNTS EXPERIENCES

Major Gardner Johnston of Vancouver, who is visiting Australia, has been telling a newspaper reporter of the Sun of Sydney, some of his early marine experiences. He said: "I left Sydney in the Cuzco in 1881 and went to England to join one of the old A. S. N. Company's new steamers, and I was in the A. S. N. company for six years. I was second mate on the ill-fated Lycee-Moon just before she was lost at Green Cape and intend looking for Captain A. W. Webster, who was my old master on that ship. It was a remarkable thing that the Zealandia should land us at the exact spot—Huddart Parker's wharf—from which I sailed from Sydney so many years ago.

"Experiences? Yes, I was once lost overboard. I was chief apprentice on the full rigged ship Lake Lemon and she was ploughing along homeward bound to Dunbar from Calcutta. We were just below the equator in the South Atlantic at the time and we were out over the side on a plank painting the ship in fair weather. The plank gave way and another apprentice and myself were dropped into the sea. The ship was sailing along with spinnaker, studding sails and everything else set and as she cut away from me she made a beautiful picture. I swam myself up for fear but saw the ship come up to the wind with the whole of her sails aback. Then I saw a man on the sky-sail yard pointing out the position of my comrades who was a better swimmer than I was. In desperation I tried to swim toward the vessel and bumped clean against a life buoy which had been thrown overboard to me. I could see the ship, but they could not see me, and I was adrift in the sea from about 2 o'clock until 4 o'clock in the afternoon when I was picked up. I saw home, my parents and the many incidents of my young life all pictured before me while I clung to that life buoy."

TRAVELLING G. T. P. BY END OF 1913

Mr. D'Arcy Tate, Legal Advisor to Railroad Council, Promises Completion—Will Finish the Last Section

"That Canada will be able to boast a second great transcontinental railroad before the end of next year is the assurance of the promise brought to Victorians by Mr. D'Arcy Tate, K. C., the legal advisor of the Grand Trunk Pacific, who is spending a few days in the city negotiating further important transactions on behalf of the road he represents with the provincial government.

"Yes," he said, "I have just been up at Prince Rupert, the terminal city of the road, reaffirming the last contract that will link up the remaining gap, located between Aldermere and Tete Jaune Cache, issuing instructions for the speedy completion of the work upon this section and at the same time seeing that everything was in readiness for a start. Messrs. Foley, Welsh & Stewart, who are the principal contractors on the western sections of the road, together with the sub-contractors who are assuming the responsibility for the subdivisions into the contract will be segregated, were taken up the line with us—that is with Mr. Kellher, the chief engineer of the company, and myself—and I am satisfied that when I say the road will be completed before the end of next year I am well within the mark."

"In order to achieve the end I have indicated special efforts will be required and it mainly with a view of ensuring these efforts being taken that I visited the scene of construction with Mr. Kellher. More plant will be required, and of course, more men will also have to be brought into the camps. The winter season is just at its height now so that the coming months will be very favorable to construction. When the snow is on the hillsides it is impossible to do a great deal and slides have often to be guarded against by taking precautions to build sheds, but the outlook is bright and I am confident that the contractors will carry out their end of the agreement and assuming that they do, my promise will be fulfilled."

Coming For Coal

"The ship Star of Zealand sailed from San Francisco on Tuesday en route to Ladysmith for the cargo of coal for the Alaska Packers Association.

Aviator Carried Out to Sea

LONDON, Jan. 10.—M. B. Fowler, the English aviator, was rescued from the sea yesterday near the Isle of Wight in an exhausted condition after a hazardous flight. He started early in the day to fly from Bueite, Hampshire, to Eastbourne, on the southern coast. He was driven out to sea by a gale and his aeroplane plunged into the water.

State of Ohio, City of Toledo, Lucas County, ss.

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure. FRANK J. CHENEY. Sworn to before me and subscribed in my presence, this 6th day of December, A.D., 1886.

(Seal) A. W. GLEASON, Notary Public.

Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces of the system. Send for testimonials free. P. J. CHENEY & CO., Toledo, O. Sold by all Druggists, etc. Take Hall's Family Pills for constipation.

J. W. Copeland, of Dayton, Ohio, purchased a bottle of Chamberlain's Cough Remedy for his boy, who had a cold, and before the bottle was all used the boy's cold was gone. Is that not better than to pay a five dollar doctor's bill? For sale by all dealers.

OWES HER HEALTH

To Lydia E. Pinkham's Vegetable Compound

Scottville, Mich.—"I want to tell you how much good Lydia E. Pinkham's Vegetable Compound and Sensitive Wash have done me. I live on a farm and have worked very hard. I am forty-five years old, and am the mother of thirteen children. Many people think it strange that I am not broken down with hard work and the care of my family, but I tell them of my good friend, your Vegetable Compound, and that there will be no backache and bearing down pains for them if they will take it as I have. I am scarcely ever without it in the house.

"I will say also that I think there is no better medicine to be found for young girls to build them up and make them strong and well. My eldest daughter has taken Lydia E. Pinkham's Vegetable Compound for painful periods and irregularity, and it has always helped her.

"I am always ready and willing to speak a good word for the Lydia E. Pinkham's Remedies. I tell every one I meet that I owe my health and happiness to these wonderful medicines."

—Mrs. J. G. JOHNSON, Scottville, Mich., R.F.D. 8.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and to-day holds the record for the largest number of actual cures of female diseases.

NOTICE

PRIVATE BILLS

NOTICE IS HEREBY GIVEN that Petitions for Private Bills must be presented to the Legislative Assembly not later than Monday the 22nd day of January, 1912.

Private Bills must be presented and introduced to the House not later than the 1st day of February, 1912.

Private Bills must be reported to the House by the Committee considering same, not later than the 8th day of February, 1912.

Dated this 6th day of December, 1911. THORNTON FELL, Clerk Legislative Assembly.

TENDERS

Tenders are invited by noon, January 15, 1912, for a Brick Building on Douglas Street for Messrs. Grant & Lineham. The lowest or any tender not necessarily accepted. Plans may be seen at the office of—

H. S. GRIFFEITH, 1006 Government Street, Victoria.

LIQUOR ACT, 1910

NOTICE IS HEREBY GIVEN that I intend to apply to the Board of Licensing Commissioners at their next sitting to be held at the City of Victoria, B. C., for a renewal of the license held by me for the sale of liquor by retail on the premises known as the Commercial Hotel at 472

Digest Reports on Sooke Lake Wynn Meredith, Consulting Engineer

Sq. Miles Area Sooke Lake Catchment... 30 Area Leech River Catchment... 31

Leech River water can be conducted into Sooke Lake by a pipe line approximately 31,000 feet in length, at an estimated cost of \$132,000. By raising the level of Sooke Lake 45 feet, a storage of 17,350,000 gallons over and above present supply can be obtained; the run off from Sooke Lake and Leech River will more than supply this annually. The present proposition is to supply for domestic purposes only 16 million gallons daily; this would leave sufficient water to generate 3,500 horse-power, but after a daily consumption of 16 million gallons were reached, the available horse-power would gradually decrease until a time arrived when the domestic supply would require the whole of the water when the power would cease altogether. Mr. Meredith states that the capital expenditure for power purposes on this basis would be excessive, and commercially impracticable.

The north line from the end of Sooke Lake to the Saanich Arm has been abandoned on account of the long tunnels, heavy capital expenditure and length of time to complete, it being estimated that at least three years will be required to finish this line, even if no unusual or unforeseen difficulties were encountered in the tunnel driving. Mr. Meredith has therefore recommended what is known as the south line, comprising 22 miles of reinforced concrete conduit down Sooke River to the south of Mount Shepherd, to the Humpback Reservoir, about half a mile from Goldstream Station, and a pressure pipe from thence to town. His reasons for this recommendation are lower initial cost, and that it can be built in not more than two years; in fact the firm to whom the contract has been awarded state that they hope to deliver the water in 18 months. Further, it is expected that quite a demand for water will arise in the neighborhood of Sooke Harbor, after the completion of the Canadian Northern Railway, and further, in no place does the proposed line touch the lands of the Esquimalt Water Works Company.

The present proposed contract is for the purpose of providing means for supplying daily to the City of Victoria, a maximum quantity of 16 million gallons of water. In his report of the 6th November last, Mr. Meredith states as follows:

"After careful consideration of Victoria's present and future requirements, it appears that a daily supply of about 16 million imperial gallons delivered to the city will fulfil all conditions, with a reasonable capital expenditure."

To this end the work comprises the clearing of the shores of Sooke Lake 15 feet above and 3 feet below the present level, the land to be cleared being approximately 300 acres above the level, and 80 acres below. The Victoria and Nanaimo wagon road will have to be raised for a distance of 11,600 feet. A dam to raise the level of the lake 12 feet will be built at the south end of Sooke Lake; this is all that is required to provide the present unit of 16 million gallons daily. The necessary gate houses, spillways, etc., will also be provided. From Sooke Lake to the Humpback Reservoir, a reinforced concrete pipe 40 inches in diameter and 125,000 feet long will be built; this will be constructed as a flow line without pressure, with a fall of 1.1 feet per 1,000 feet, being practically the hydraulic gradient. On this line there are no tunnels.

The Humpback Reservoir is situated on the Humpback road about 1/2 mile from Goldstream Station, and has a capacity of 130,000,000 gallons, thus enabling repairs on the concrete line if required to be completed without interfering with the City's supply. From the Humpback Reservoir a pressure pipe of riveted steel is to be laid. This pipe is 36 inches in diameter, and for

the first 19,000 feet is to be made of plates 5-16-in. in thickness, the balance of the distance the plates are to be 3/8-in. thick. It was at first intended to carry this pipe across the Arm at Craigflower Bridge, and thence follow the Gorge Road to town, but the surveys showed that the bottom of the pipe would be below the salt water, and fearing that the water might reach the steel pipe, and damage it, Mr. Meredith decided to change the route to the head of the Arm. This pipe line will run to the south of Langford Lake, and thence follow the line of the E. & N. Railway to a short distance this side of Parson's Bridge, when Deadman's River will be crossed, and the north bank of that stream followed, thus avoiding the heavy grades at the Four-Mile House. The line will then pass through the new subdivision of Crescemboro to the Burnside Road, thence to Washington Avenue and the Gorge Road, connecting with the pipe to Smith's Hill Reservoir at the corner of Hillside Avenue and Douglas Street.

In the specification it is provided that the contractor shall maintain the whole of the works in good order for the term of one year, so that when the work is finally accepted, it may be taken for granted that it will be a perfect, complete job.

Reply to Advertisements of the Esquimalt Water Works Co.

In the first place, the cost of the Sooke Lake water scheme is put at \$2,000,000; the people have already authorized an expenditure of \$1,500,000, and it is not expected that this amount will be materially exceeded. A contract has been signed for the sum of \$1,169,720, and allowing the same amount for land as fixed by the company, \$200,000, there is still left a margin for any excess in quantities over the specification; these quantities are not haphazard guesses, but are the result of actual surveys. The principal items in which there might be a difference are the rock and earth excavation and back-filling; these amount to \$236,850, or about 20% of the whole job. The heaviest items of expenditure, such as pipe lines, buildings, clearing of land, etc., are a known quantity, and will not be exceeded. Notwithstanding the statement of the Company to the contrary, this contract has been signed by the Westholme Lumber Co., and is binding on the contractors. The Seal of the Corporation will be affixed as soon as the contract is ratified at the Election on the 11th inst.

Under the heading, "Cost per year to taxpayers," the cost of the work is taken at \$1,900,000; and interest and discount computed on this at 5% per annum. This is absolutely incorrect; we only pay 4% interest on our debt, and have already sold half a million dollars' worth of the Sooke Lake Debentures at 95, and see no reason why the balance should not fetch the same price. The discount is not chargeable to revenue, as stated by the Company, but is part of the capital. Even if it were charged to revenue, it would be only 1-12% of 1% per annum, instead of 1%, as stated in the advertisement, an overcharge of \$19,000 (nineteen thousand dollars). Maintenance is put at \$24,000 a year. I have gone into this with the Consulting Engineer, and \$5,000 is an outside amount for the maintenance.

This statement has been again questioned by the Esquimalt Water Works Co., but it must be distinctly understood that this charge of maintenance can only be charged against the Sooke Lake scheme proper, and not be confused with the maintenance of the balance of the system.

Under the contract the contractor has to maintain the works for one year after completion, so that it is only fair to assume that when they are handed over to the City they will be complete in every respect.

In one place the Sinking Fund on \$2,000,000 is placed at \$50,000 per annum, in another at \$40,000; as a matter of fact, it is \$13,100 a year. The figures of the Company are based on

the assumption that the City would allow a Sinking Fund of \$2,000,000 to accumulate during a term of 50 years without earning one cent of interest. They have simply taken the amount of \$2,000,000, divided it by the term of years and called the quotient the required Sinking Fund, without allowing anything whatever for interest.

In its third advertisement the Company still maintains that the Sinking Fund will be either \$40,000 or \$50,000, also that the statement that the amount required is only \$13,100 is "absolutely wrong." Any schoolboy can easily prove that \$13,100 paid annually, and interest compounded at 4% will at the end of 50 years amount to \$2,000,000. Even for the sake of argument, allowing that the life of the steel pipe is only 20 years, the annual charge for Sinking Fund would still only be \$163,497.70, not from \$40,000 to \$50,000, as claimed by the Company.

Therefore, adding to the amount of \$19,000 in the third section of the advertisement the \$40,000 mentioned in the sixth section, as required for Sinking Funds, we have a total of \$159,000. The correct figures, taking the Company's basis of cost, should be \$33,445, or a discrepancy in the Company's statement of \$55,555, or over 40%. No allowance is made for the saving to the City caused by the abandonment of the Elk Lake system, the expenditure on filter beds and North Dairy Pumping Station, amounting to \$200,000 annually. This would bring the estimated cost to the City, on the basis of the Company's estimate of cost to \$73,445, instead of \$159,000, as mentioned in the advertisement. Taking the amount of \$1,500,000 as the cost of the scheme, and allowing for the saving on the Elk Lake system, the annual cost will be \$54,825, or \$104,175 less than stated by the Company.

In their advertisements the Company has allowed nothing for the increased water rates and rents in the future. The amount collected for water annually sold, and for the frontage tax, excluding building rates, services and City institutions, was in 1910 \$123,618.21; in 1911 it will be over \$141,000, an increase of upwards of 20%. If this increase is maintained, by 1915 the increase in water rates and rents will take care of the entire cost of the Sooke Lake system, without charging one cent to the general taxes. The Company's statement assumes that the whole of the annual charge claimed by them, viz., \$159,000, will have to be met out of the general taxes for every year of the 50 years that the loan has to run.

Regarding the statements "a" to "d" in the last part of the first advertisement, the loss of interest during construction will amount to \$70,000, the cost of operating Elk Lake will amount to \$20,000 annually. The annual charge, as already stated, will be only \$54,825, or \$4,825.90 more than the Company proposes to charge the City for 10 years, with this difference, that, in one case, the City will be extinguishing the debt on what it actually owns, and in the other, it will be paying out money, and in the end have nothing to show for it.

Difficulties of construction, discoverable only by actual work; the line has been very carefully surveyed, and with the advantage of the experience of Mr. Meredith and Mr. Carpenter at Jordan River, there should be no very great amount of unexpected difficulties encountered.

The Engineer's estimate is given at \$1,700,000; for obvious reasons no estimate of the Engineer has ever been published; his estimate, however, was \$1,592,874.

It is also stated that "under the Sooke Lake proposition the present ratepayers will have to pay for double the quantity of water which can be any possibility be used, meaning increased taxes and dead loss."

The Engineer deemed it better policy to bring in a unit of 16 millions of water at once, rather than to bring in only as much as wanted at the present time, and in a short time have to instal another pipe. One unit of 16 million gallons will cost less than 3 to 5 mil-

lion gallons each. There is, however, the same "dead horse" proposition in the Company's offer, as the price to be paid them is \$50,000 per annum, whether one million or ten million gallons is used daily, and according to their statement the maximum will not be reached until the end of 17 years.

A second advertisement states that Victoria is obtaining from Elk Lake 3 million gallons of water daily, and no more; we are delivering 4 1/2 million gallons, and this supply can be maintained until the new system is in operation.

In section 2 of the second advertisement it is stated that the cost of the present Elk Lake system is \$98,550 annually. I cannot figure out how this amount is arrived at; the total estimated cost of maintenance of the entire system for 1911, exclusive of interest and sinking fund, is as per By-law 874, \$66,580, and, as already shown, when the new system is in operation, this will be reduced to \$46,580. Section 4 states that if the proposal of the Esquimalt Water Works Co. is accepted, there will be a saving of \$48,000 per annum, the only conclusion to be drawn from this statement is that if water is bought from the Company, the cost of maintenance will be nil. The system has to be maintained no matter where the water comes from, and it would be both interesting and instructive if the Company would vouchsafe an explanation as to how it would be possible for the entire water system of the City of Victoria to be maintained for nothing. The charge would be \$46,580 plus \$50,000 for water, a total of \$96,580 per annum.

The Engineer has never made any report to the Council regarding the necessity of filtering, as inferred in the last part of the third advertisement. An elaborate screening system is provided both at Sooke Lake and Humpback Reservoir, and there is a cascading device at the latter place 20 feet high.

The following is the analysis of the water of both Sooke Lake and Goldstream:

S. Lake Goldstr'm			
Free ammonia in parts, per million	 0.01	0.001	
Albuminoid ammonia in parts, per million	 0.05	0.05	
Chlorine in grains, per gallon	 04	0.3	

Analysis taken June, 1910.

The laying of the concrete conduit without covering was recommended by the Engineer, as he was of the opinion that it was not needed. Should it, however, be found that a covering is required, it can be put on at any time at no greater cost than at present, and if not necessary, the additional cost will be saved.

There is one fatal defect in the offer of the Esquimalt Water Works Co., viz., at the end of 10 years after paying out \$500,000, the City would own absolutely nothing, nor be one step further forward than they are today towards obtaining a complete and ample supply of water for the City of Victoria, owned by the City of Victoria.

Whittled down to a conclusion, the proposal of the Esquimalt Water Works Co. is not in the best interests of the City, even though a small balance (less than \$5,000 per annum) may be shown in its favor. If there is anything that even the most determined opponents of municipal ownership admit should be municipally owned, it is water, and at this date for the City to allow a rival company to own its water supply would be both reactionary and retrograde. Capitalize \$50,000 per annum for water that at present and for years to come will go to waste, and you add \$1,000,000 to the value of the Company's holdings. Should the proposed agreement be entered into, and at a later date the City decide to acquire the property of the Esquimalt Water Works Company, a largely enhanced value would have to be paid for, and this enhanced value would be caused solely and wholly by the action of the ratepayers in agreeing to the Company's proposition.

JAS. L. RAYMUR, Water Commissioner.

Johnston street, Victoria, B. C. Dated 2nd January, 1912. FREDERICK F. CLARE, Applicant.

TENDERS

Tenders are invited by noon January 22, 1912, for alterations and additions to factory, Mary street, Victoria West, for Messrs. Poplham Bros. The lowest or any tender not necessarily accepted. Plans and specifications may be seen Friday, January 12, at the office of—

H. S. GRIFFEITH, Architect, 3006 Government Street, Victoria.

NOTICE

NOTICE IS HEREBY GIVEN that Ludwig Hermann Loenhelm and John Barnsley of Victoria, British Columbia, are applying to His Excellency the Governor-General of Canada in Council for approval of the area plans, site and description of works proposed to be constructed in Selkirk Waters, Victoria Arm, Victoria, B.C., being on the lands situate 37ing and being in the City of Victoria aforesaid, and known numbered and described as Lots Thirty-four (34),

Thirty-five (35), and Thirty-six (36), Burnside Extension of the Work Estate as shown on the maps or plans filed in the Land Registry Office at the City of Victoria, British Columbia, and numbered one hundred and eleven (111), and has deposited the area and site plans of the proposed works and a description thereof with the Minister of Public Works at Ottawa, and a duplicate thereof with the Registrar General of Titles in the Land Registry Office in the City of Victoria, British Columbia, and that the matter of the said application will be proceeded with at the expiration of one month from the time of the first publication of this Notice in the "Canadian Gazette."

Dated this 11th day of December, A. D., 1911. LUDWIG HERMANN LOENHELM JOHN BARNSELY, Petitioners.

NOTICE

TAKE NOTICE that at the first sitting in 1912 (March 13th) of the Board of Licensing Commissioners for the City of Victoria, I intend to apply for a transfer of the license for the sale of spirituous and fermented liquors by retail held by me for the premises known as the Brick Exchange, corner Yates and Langley streets, Victoria, B. C., to Selgie Boyd, of Victoria, B. C. Dated at Victoria, B. C., this 4th day of December, 1911. ANDREW RYAN

TENDERS

For the erection of a six storey, reinforced concrete building on the north side of Johnston street, between Broad and Douglas, for Mr. Chas. Sayward and Mr. Frank S. Barnard, will be received by the undersigned until Monday, January 14th, 1912, at 5 p. m. The lowest or any tender not necessarily accepted. BREHMANN & DUNN, Architects.

land as a work of local improvement.

AND WHEREAS the City Engineer and City Assessor on the 24th day of July, 1909, and 11th day of October, 1909, made four joint reports and thereby determined the proper life of the work of improvement and compared the same with the cost of the work of improvement and ascertained and determined the proportion in which the assessment for the cost of the work of improvement should be made on the real property and portions of real property benefited and assessed accordingly with the payment of the amount set in the 7th and 8th columns of the schedule opposite each lot, portion of real property.

AND WHEREAS by supplementary report of the City Engineer and City Assessor made on the 24th day of November, 1911, the cost of the said work of improvement as actually carried out, and the proportions in which the assessment for the same, or of such proportion thereof as is not contributed by the Council, should be made, and the real property immediately benefited by the work of improvement is shown as ascertained and determined.

AND WHEREAS the cost of the work of improvement is shown by the last column of the schedule to be \$18,253.05, and the amount to be assessed against the owners of the real property benefited is shown to be \$18,253.05, and the Council proposed to contribute to the cost of the work of improvement the sum of \$18,253.05.

AND WHEREAS the said supplementary report has been adopted by the Council.

AND WHEREAS in pursuance of said By-law No. 640 and in order to defray the cost during construction, the Council proposed to raise the sum of \$18,253.05 by the sale of debentures to be called "Local Improvement Debentures," to be made for such sum or sums, not however, exceeding the sum of \$18,253.05, and each of said debentures being of the amount of not less than \$1,000 except in the case of one of such debentures named as hereunder.

AND WHEREAS the Council by resolution, affirmed that the said work of local improvement benefits the Municipality at large, and that it would be justifiable to raise the whole cost of such improvement by special assessments upon the persons otherwise assessable therefor, and proposes to contribute the said amount of \$18,253.05 out of the revenue of the Municipality, being approximately one-third of the total cost.

AND WHEREAS the Council has decided to distribute the payment of the cost of said work proposed to be assessed hereunder upon the lands and improvements situated within the boundaries of the Corporation at large.

AND WHEREAS the total frontage upon the said work of local improvement of the real property and portions of real property immediately benefited is 574 feet and 6 inches and the proportion of the cost is as aforesaid \$18,253.05.

AND WHEREAS the said amount which the Council proposes to contribute cannot be so contributed as aforesaid without submitting the By-law to the Electors entitled to vote upon money By-laws.

THEREFORE the Municipal Council of the City of Victoria enacts as follows:

1. That the real property immediately benefited by the said work of local improvement shall be that which is particularly mentioned in the said report and which is set forth and described in the schedule following:

Oak Bay Avenue, from Fort Street to Foul Bay Road. Expropriation of Property. Construction of permanent sidewalks, grading, draining and macadamizing roadway. Construction of sewer laterals

BAANICH MUNICIPALITY.

ELECTION OF SCHOOL TRUSTEES

Public notice is hereby given to the electors of the Municipality, that in order to qualify to require the presence of said electors at the election of School Trustees, on Monday the 8th day of January, 1912, at 2 o'clock (noon) to 2 p.m., for the purpose of electing the School Trustees, the electors must be present at the election at the Board of Trustees for Sanborn Municipality.

Any person being a householder in the School District, and being a British subject, or being a resident of the Municipality, and otherwise qualified by the provisions of the Act to vote at an election of School Trustees, may be nominated by any elector, and may be elected to serve as School Trustees.

The mode of nomination of candidates shall be as follows:—The names of candidates shall be submitted by the electors to the Municipality as proposer and seconder, and shall be delivered to the Returning Officer at any time before the 21st day of January, 1912, at 5 p.m., of the day of the nomination, and the poll will be opened on the 21st day of January at the following places: For the first ward, at the Court House; for the second ward, at Tolmie School House; for the third ward, at the Hotel; for the fourth ward, at the Quilz Hall; Carey Road; for the fifth ward, at the Hotel; for the sixth ward, at the place at the Temperance Hall, Sanborn.

At 8 a.m. to 7 p.m. at which time a poll will be taken, the electors may vote for or against the candidates, and the vote for Keawe will be entitled to nullify the vote of any elector, and the names of the members of the Board of School Trustees.

any one or cast one vote for any such candidate, which every person is hereby required to take notice and govern himself accordingly.

Given under my hand at Royal Oak British Columbia, this 23th day of December, 1911.

J. R. CARMICHAEL,
Returning Officer.

**COMPOSITION OF THE DISTRICT
OF OAK BAY
BYLAW NO. 110
A BY-LAW**

Authorizing an agreement with the Co

ration of the City of Victoria
maintaining a Fire Department

the protection of the District of Oak Bay.

WHEREAS the Municipal Council, the Corporation of the District of Oak Bay has arranged an agreement with the Corporation of the City of Victoria for the protection of the District of Oak Bay from loss by fire in the words and figures following:

"Memorandum of Agreement made this 1st day of January, in the year of Our Lord, one thousand nine hundred and twelve:-

THE CORPORATION OF THE DISTRICT OF OAK BAY
(Hereinafter called "The Corporation of the District")

AND
THE CORPORATION OF THE CITY OF VICTORIA
(Hereinafter called "the City")"

OF THE SECOND PART

WHEREAS the Corporation and the City have agreed that the City shall erect and maintain a fire alarm bell on Bay Avenue or in the vicinity of the Bay Road, and that the said station shall respond to all alarms of fire within the limits of the City limits, but within the limits of the Corporation, and towards the expense of the station and equipment.

AND WHEREAS the Corporation of the Municipality of Oak Bay shall pay a sum of One hundred and fifty dollars (\$150.00) per month

NOW THEREFORE THIS AGREEMENT

tion of the covenants on behalf of the Corporation hereinafter contained in the City covenants, promises and agrees with the Corporation as follows:

—1. That they will purchase a suitable site on Oak Bay Avenue or Foul Bay Road or in that vicinity and there build and equip in a style and manner similar to other outlying fire stations in the City, a Fire Hall, suitable for a paratus and equipment, keeping there four (4) firemen who shall respond every fire alarm within their reach whether in the City or in the Corporation.

AND in consideration of the above covenants the Corporation promises and agrees to and with the City that the will from month to month from the date that they are notified that the station is in actual operation contribute and pay to the City the sum of One hundred and fifty dollars (\$150.00) per month for the fire protection thus afforded to them.

THIS agreement shall be binding upon the City only in case a Bylaw be submitted to the people for the ratification.

ing of the sum of Thirty-five thousand dollars (\$35,000.00) is duly passed by the electors of the City and shall be ratified by the electors of Oak Bay before being binding upon the Corporation.

IN WITNESS WHEREOF the parties hereto have hereunto set their hands and seals the day and year first above written.

THE SEAL of the Corporation of the District of Oak Bay was hereunto affixed in the presence of:

C.M.C.

THE SEAL of the Corporation of the City of Victoria was

Received

hereunto affixed in the presence of:

CMC Mayor

NOW THEREFORE the Municipal Council of the Corporation of the District of Oak Bay enacts as follows:

1. The terms of the agreement heretofore fully set out and in the recitals of this By-law shall be, and the same are hereby accepted and the said agreement is hereby validated and sanctioned.

2. The said Corporation shall forthwith, after the assent of the ratepayers of the Corporation shall have been given

3. This By-law shall, before the filing of the same with the County Clerk, be passed by the majority of the persons who shall vote upon said By-law in the manner provided for in the "Municipal Charter of the City of Oak Bay."

Act" as shall take effect on the day after the filing of the same with the Council of the Corporation.

4. This By-law may be cited as the "Fire Protection By-law, 1911."

Passed the Municipal Council the 11th day of December, 1911.

**CORPORATION OF THE DISTRICT
OF OAK HAY**

TAKE NOTICE that the above is true copy of the proposed By-law on which the vote of the Municipality will be taken at the School Board Room, 100 Avenue, on Saturday, the 13th day

January 1913, from 5 a. m. to 1 p. m.

WHAT THE WORLD'S PRESS IS SAYING

Danger in Pacific

If the twentieth century is to be Canada's, China, India and Japan will also play a distinguished role. Perhaps the rise of the Asiatic powers, making the Pacific highway of traffic, will be an important factor in the building of Canada, which has the advantage of fronting three oceans. No doubt there are dangers in store for our Pacific provinces, and that calls to mind again the Canadian navy.—London Advertiser.

The Good Name of Canada

Canada has her own marked traits of national character. Even to strangers the word "Canada" denotes very much more than the understanding of it as a term of geographical nomenclature. More and more the outside world is getting distinct ideas of us as a people, ideas that are for the most part very complimentary to us. The Canadian people are everywhere recognized for enterprise, industry, belief in their country and strong national spirit. This last-named quality has been specially marked by observers since the elections of last September. At all events, the Canadian people are now generally attributed merits of a very high order.—Toronto Mail and Empire.

The "Red Peril"

The "Red Peril" is not a mere picturesque phrase. It represents a most real and imminent danger, a danger the more grave because of the obscurity which covers the operations of the Socialist conspiracy. Socialism is protean in its forms and Jesuitical in its methods. It is all things to all men. But it is to the failures of civilization, the people of attenuated physique, feeble brain and uncontrolled propensities, the dregs deposited by the ferment of modern life, the worthless and hopeless residuum, that the most feverish rhetoric is offered. They are promised the overthrow of the social fabric, the sack and plunder of all orders above the lowest. For their behoof property of all kinds is to be confiscated, the churches are to be plundered and dispossessed; eminence and ability of every kind are to be destroyed. Socialism talked at a well-supplied dinner table, tricked out with cheap optimism and well-trod sneers at the old institutions sounds less repulsive than the same doctrines crudely bawled in Hyde Park or Clapham Common. But in essence it is the same. It must be recognized that Socialism in any shape is an enemy to be fought, in the cabinet, in the house of commons, and in society as well as at the street corner. Socialism is, in a word, the snarl of the incompetent.—London Standard.

C. & W. Grill and Restaurant, basement of Sayward block. Our Merchants a la carte Lunch cannot be equalled. Steaks and chops, from the only Electric Grill in town; unsurpassed for excellence.

CORPORATION OF THE DISTRICT OF OAK BAY

MUNICIPAL ELECTIONS

PUBLIC NOTICE is hereby given to the electors of the Municipality of the District of Oak Bay that they are required to attend at the said Elections at the School House, Oak Bay Avenue, on Monday, the eighth day of January, 1912, at 12 o'clock noon, for the purpose of electing persons to represent them in the Municipal Council, as follows: and Councillors:

The Mode of Nomination of Candidates shall be as follows: The Candidates shall be nominated in writing, the writing shall be subscribed by two voters of the Municipality as proposer and seconder, and shall be delivered to the Returning Officer at any time between the date of this notice and 2 p.m. of the day of the nomination, and in the event of a poll being necessary, such poll will be open on the eighth day of January, 1912, at the School House, Oak Bay Avenue, from 9 a.m. to 7 p.m., of which every person is hereby required to take notice and govern himself accordingly.

The Qualification for Voters shall be his being a male British subject and having been for the three months next preceding the day of his nomination the registered owner, in the Land Registry Office, of land or real property situated within the Municipality of the District of Oak Bay, and above any registered judgment or charge, and being otherwise duly qualified as a voter.

Given under my hand at Oak Bay, B. C., the 22nd day of December, 1911.

(Sd) HENRY E. PULLEN, Returning Officer.

NOTICE

The sale of lumber and corrugated iron at Portage Inlet Poultry Ranch is postponed until further notice.

Esquimalt Waterworks Company

(Advertisement paid for at current rate.)

We take this opportunity of answering the statement today placed in circulation by Mr. James L. Raymur, Water Commissioner, and dealing with the advertisements published by this Company. Once you realize the effect of the figures set out below, the Sooke Lake madness will cease.

Mr. Raymur brings forward as his prize argument the statement that, if the City buys water from the Esquimalt Waterworks Company, at the end of ten years the City will have paid \$500,000 to the Company and will have nothing to show for it in the way of a municipal waterworks system. You read it and say: "How wonderful. I never thought of that before." But when you stop to analyze it, you will never think of it again. It is an untruth by indirection. He wants you to think that the money cost of bringing water through the Sooke Lake system will help to pay for the system. It won't. Water costs money, just the same as flour, water or sugar. The money to build the Sooke Lake system will have to be raised by a two million dollar mortgage on the City. Then when you have borrowed and spent that money, you will begin to pay money for bringing water through the system into the city. This is where you get at the actual cost of water. We show in our first advertisement by absolutely correct figures that the cost per year of water through the Sooke Lake system will be \$119,000, not one dollar of which goes towards payment for the system. You get nothing for it but water. In ten years you will have paid \$1,190,000 for nothing but the same water you can buy from the Esquimalt Waterworks Company for \$500,000. By buying the water from the Company you will in ten years save \$690,000 on the actual cost of the water supply, and also save the taxes neces-

sary to make up a Sinking Fund of between \$40,000 and \$50,000 per year, a total saving of over \$100,000 per year for ten years.

To illustrate our explanation we will assume that in addition to keeping Mr. Raymur on as Water Commissioner, you elevate him to the position of Coal Commissioner. Coal can be purchased in the open market for \$7.50 per ton. If your Coal Commissioner comes out with a proposal to mortgage the City and buy a municipal coal mine, from which the coal would cost \$15.00 per ton, you will know he is crazy.

Then come back to the Sooke Lake project—

Mortgage on City \$2,000,000

Cost of water for ten years 1,190,000

Cost of Sinking Fund for ten

years at least 400,000

\$3,590,000

All tied up to get water which you can

buy for \$50,000 per year without any mortgage on the City.

Mr. Raymur says the Sinking Fund need only be \$13,500 per year. He is absolutely wrong in this, because the Waterworks System will not last forever. The life of a riveted steel main is never estimated to exceed 26 years.

The life of a concrete main laid along the ground without trenching or covering is problematical, with all the chances against it. We know it will

take at least \$400,000 in ten years, and if only \$13,500 per year is provided for, the balance will be taken out of you in one lump sum, per bylaw.

Mr. Raymur says \$5000 per year will cover the cost of operating the system between Sooke Lake and the City limits. This amount will hardly cover the wages and supplies of necessary permanent employees. Our estimate of \$24,000 per year is absolutely and honestly conservative.

Mr. Raymur says a contract has been signed for the construction of the system for \$1,190,000.

He is entirely wrong in this because the contract has not been signed, no bondsmen or security being forthcoming.

Then there are some things Mr. Raymur has not told us: (a) The work is subject to the "Mechanics Lien Act," by the terms of the specification, so that, if the contractor goes broke, the City will have to pay all the bills, no matter how great.

(b) No Surety Company will give bonds for the fulfilment of the contract.

(c) The engineer has ascertained that Sooke Lake water must be filtered before it can safely be used for drinking or cooking, so that the expense of a huge filtration plant must be anticipated. And

(d) The laying of an unprotected concrete main is altogether experimental. Nobody knows how it will turn out.
